

## Disinfectant - Deodorant - Germicide

A POWERFUL, PLEASANT DISINFECTANT, GERMICIDE AND DEODORANT WHICH IS EFFECTIVE AGAINST A WIDE RANGE OF BACTERIA, BOTH THE GRAM POSITIVE TYPE (Streptococcus Pyogenes, Staphylococcus Aureus, etc.) AND THE GRAM NEGATIVE TYPE (S. Choleraesuis, S. Typhosa, etc.)

It is especially recommended for: General Disinfecting and deodorizing of floors, walls, sinks, bathrooms, toilets, urinals, garbage receptacles, toilet seats, refrigerators, cooling rooms, hospital and sickroom use, general household use, telephones or any surface to prevent the spread of bacteria. Used as a prophylactic agent to aid in controlling transmission of athletes' foot fungi in swimming pools, locker rooms, gymnasiums, hospitals, institutions or any place where people walk barefooted. Used as a deodorant which is noticeable for 1 to 3 hours after use.

It is soluble in water forming a milky white emulsion. Is non-corrosive and when mixed with water in recommended dilutions will not stain walls, floors, or clothes and leaves a pleasant, fragrant odor of mint.

USDA Reg. No. 276-E-7

# “WILL-PHENE” DISINFECTANT

Phenol Coefficient 7.5 A.O.A.C. Method

## DIRECTIONS FOR USE

**GENERAL DISINFECTING:** Remove all filth and dirt, then use a solution of one ounce to 1 gallon of water.

**FLOORS:** When mopping or scrubbing use 2 ounces of Disinfectant to each gallon of water. May be used in the rinse water as well, providing a pleasant mint scented deodorizer.

**TOILET ROOMS, WATER CLOSETS AND URINALS:** Wash the closet and urinal bowls regularly with a solution of 2 ounces of Disinfectant to each gallon of water, leaving the solution in the bowl as long as possible. Scrub the floor and seat with this solution.

**GARBAGE RECEPTACLES:** To aid in preventing the breeding of Bacteria, sprinkle with the solution in the proportion of 2 ounces of Disinfectant to each gallon of water. Rinse the empty can with some of the solution and leave the wash in the can.

**HOSPITAL USE, SURGICAL INSTRUMENTS, OPERATING EQUIPMENT, RUBBER GOODS:** Use 1 part Disinfectant to 100 parts water for gram negative bacteria and 1 part Disinfectant to 64 parts water for gram positive bacteria.

**TO AID IN THE SANITARY DISPOSAL OF URINE AND FECES:** Use 2 ounces of Disinfectant to each gallon of water, leave in contact for 1 hour.

**SICKROOM:** Disinfecting of beds, clothing, utensils, bed clothes, rooms: Use 1 part Disinfectant to 100 parts water for gram negative bacteria and 1 part Disinfectant to 64 parts water for gram positive bacteria.

**CONTROLLING THE SPREAD OF ATHLETES' FOOT FUNGI:** As a prophylactic agent to aid in controlling transmission of Athletes' Foot Fungi in locker rooms, swimming pools, etc., use a solution of 2 ounces Disinfectant to each gallon of water on floors, runways, benches, etc.

**CAUTION:** Harmful if swallowed! Avoid contact with skin, eyes and clothing. Avoid breathing spray mist. Avoid contamination of feed and foodstuffs (H.P.). Keep away from children and domestic animals.
