**Sanygen**

**ACTIVE INGREDIENT**  
 Poly(oxyethylene (dimethylamine) ethylene-  
 (dimethylamine) ethylene dichloride) 30.0%

**INERT INGREDIENT** 70.0%

This product contains 2.87 lb. of active ingredient per gallon and weighs 8.90 lb. per gallon

**PRECAUTIONARY STATEMENTS  
 HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing.  
**FIRST AID:** If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.  
**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

**DIRECTIONS FOR USE  
 GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
 SANYGEN Concentrated Algaecide is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using SANYGEN Concentrated Algaecide.  
 For pools having just visible algae growth, add an initial dose of 24 to 37 fluid ounces of SANYGEN Concentrated Algaecide per 10,000 gallons of water and remove settled algae debris by cleaning.  
 For treatment of a freshly cleaned and filled pool, add initially 13 to 24 fluid ounces of SANYGEN Concentrated Algaecide per 10,000 gallons of water.  
 To maintain pools free of visible algae growth, subsequent additions of 4 to 8 fluid ounces of SANYGEN Concentrated Algaecide per 10,000 gallons of water should be made every 5 to 7 days after the initial treatment.  
 SANYGEN Concentrated Algaecide is compatible with those chemicals normally used to treat pools and effective at both acid and alkaline pH. SANYGEN Concentrated Algaecide can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix SANYGEN Concentrated Algaecide with concentrated dry or liquid chlorine products.  
**STORAGE & DISPOSAL:** Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. The container must be triple rinsed (or equivalent) and offered for recycling, reconditioning, or disposal in an approved landfill or buried in a safe place. Residue that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.
