USAGE CAUTIONS

Do not use within ten days to two weeks of an oil spray. Applications of spraying and dusting materials containing Sulfur should not be made just prior to or during periods of excessively high temperatures.

DISPOSE OF WASTES by burying in non-crop lands away from water supplies. Container should be disposed of by burying with wastes or by burning. Keep out of smoke.

This product contains thirty percent bentonite sulfur. Bentonite sulfur is made by the absorption of fused sulfur into bentonite in the proportions of thirty parts sulfur and seventy parts bentonite. A portion of the sulfur particles are very minute, some of them colloidal. The process of manufacture and the character of the sulfur particles impart to the product distinctive properties with respect to toxicity to certain fungi, persistence on plants, suspensibility in spray tank and safety to host plants.
