#### Kolodust Fungicide-Insecticide Code 216

Applications of sulfur should not be made just prior to or during periods of excessively high summer temperatures. Cannot apply within 14 days (60 days on citrus) following an oil application. Kolodust may be applied by aerial or ground equipment unless otherwise noted. Thorough coverage at recommended rates are necessary for control. Make applications frequently enough to keep new growth protected or during the early season when disease threatens because of rains or high humidity. Post-bloom application should be made at 7 to 10 day intervals or as necessary to maintain control.
