# KOLODUST® 100

## DIRECTIONS FOR USE

Niagara Kolodust 100 is a dusting material containing Dichlone and Kolodust for use in the control of certain plant diseases. Use this material at the rate of 40-60 pounds per acre in pre-blossom and blossom applications. Make first application when weather conditions are conducive to disease development. Repeat as necessary to maintain control. Use a suitable fungicide beyond the time limitations of this product. May be applied with ground or airplane application equipment.

**APPLES:** Black Rot (Frog Eye), Scab, Powdery Mildew — Do not apply during bloom since some blackening of the blossoms may occur. Do not apply later than 10 days after petal fall.

**CHERRIES:** Brown Rot, Powdery Mildew — Do not apply after the petal fall period.

**PEACHES:** Brown Rot, Coryneum Blight (Shot Hole), Powdery Mildew — Do not apply after petal fall. Do not permit workers to re-enter treated area to engage in any activity requiring substantive contact with treated foliage within 1 day of application.

**PLUMS:** Brown Rot — Do not apply after petal fall.

**PRUNES:** Brown Rot — Do not apply after petal fall.

## FUNGICIDE

EPA REGISTRATION NO. 279-555 AA

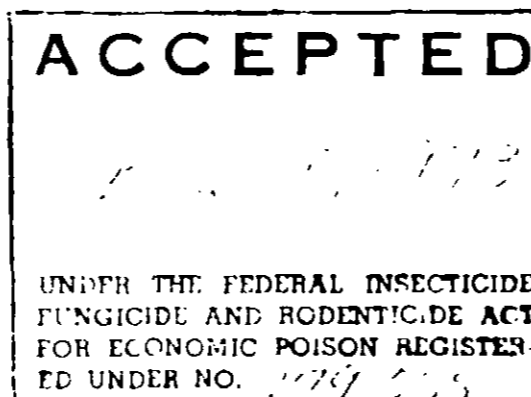

ACTIVE INGREDIENTS:	BY WT.
†Dichlone .....	0.50%
Sulphur .....	83.16%
INERT INGREDIENTS: .....	16.34%
	<u>100.00%</u>

†2, 3-Dichloro-1, 4-naphthoquinone  
Sulfur fineness 99.7% thru 325 mesh.

## CAUTION

### KEEP OUT OF REACH OF CHILDREN

May cause skin irritation. Avoid contact with skin, eyes or clothing. Avoid inhalation of dust. Wear protective clothing. Wash with soap and water after using. Avoid storage near feed and food products.

## USAGE CAUTIONS

This product is toxic to fish. Keep out of lakes, ponds and streams. Do not contaminate water by cleaning of equipment, or disposal of wastes and containers. Apply this product only as specified on the label.

Application of materials containing sulfur should not be made just prior to or during periods of excessively high temperatures, or within 10 days to 2 weeks of an oil spray.

Do not allow this material to drift onto sulfur sensitive crops.

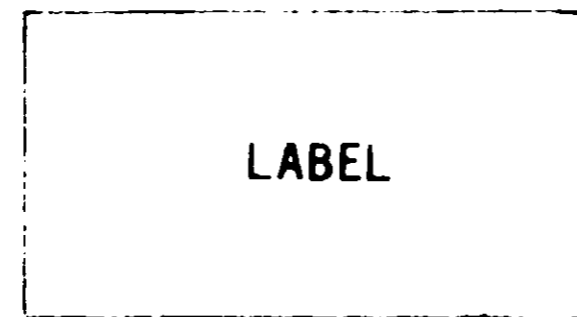

Do not apply when weather conditions favor drift from the areas treated. Do not apply when run-off is likely to occur.

DISPOSE OF WASTES by burying in non-crop land away from water supplies. Empty bags should be buried with wastes or burned. Keep out of smoke.

**For Emergency Assistance Call  
716-735-3765**

This product contains 13.5 per cent Bentonite Sulfur. Bentonite Sulfur is made by the absorption of fused sulfur into Bentonite in the proportion of thirty parts sulfur and seventy parts Bentonite. A portion of the sulfur particles are very minute, some of them colloidal. The process of manufacture and the character of the sulfur particles impart to the product distinctive properties with respect to toxicity to certain fungi, persistence on plants, suspensibility in spray tank and safety to host plants.
