Lindane 20 Miscible Insecticide

EPA Reg. No. 279-868 ZA EPA Est., 279-

Active Ingredients:	By Wt.
Lindane (Gamma Isomer of Benzene Hexachloride)	20.00%
Xylene Range Aromatic Solvent	54.50%
Inert Ingredients:	25.50%
	100.00%

Contains 1.6 pounds Lindane per gallon

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See Other Panels for Additional Precautionary Information.
For Emergency Assistance Call 716-735-3765.

STATEMENT OF PRACTICAL TREATMENT

If swallowed—Call a physician immediately. Gastric lavage is indicated if material was taken internally. **DO NOT INDUCE VOMITING** unless other treatment is not available. Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled—Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin—Remove contaminated clothing and wash affected area with soap and water.

If in eyes—Flush eyes with plenty of water for at least 15 minutes. Call a physician immediately.

PRECAUTIONARY STATEMENTS Hazards to Humans (& Domestic Animals)

Caution
May be absorbed through skin. Avoid breathing spray mist. Avoid contact with skin. In case of contact, wash immediately with soap and water. Avoid contamination of feed and foodstuffs. Do not use on household pets or humans. Harmful if swallowed.

Environmental Hazards

This product is toxic to fish and wildlife. Keep out of lakes, ponds and streams. Birds feeding on treated areas may be killed. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply when weather conditions favor drift from the areas treated. Do not apply where runoff is likely to occur. Apply this product only as specified on this label.

This pesticide is highly toxic to bees exposed to direct treatment or to residues remaining on the treated area. Do not apply when bees are actively visiting the crop, cover crop, or weeds blooming in the treatment area. Application should be timed to provide the maximum possible interval between treatment and the next period of bee activity.

Do not use in a manner or at a time other than in accordance with label directions because animal, plant or crop injury, illegal residues or other undesirable results may occur.

Do not apply to land to be planted to root crops.

Physical or Chemical Hazards

Flammable. Keep away from heat and open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Pesticide spray mixture or residue that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Do not reuse container. To dispose of container, triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill, or bury in a safe place. Do not cut or weld this container. Consult Federal, State or local disposal authorities for approved alternative procedures.

Do not use in undiluted form.

Do not allow to freeze.

Do not use in poultry houses.

Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas where food is exposed.

Method of Application: Use any pressure sprayer adjusted to avoid too much mist as a coarse spray prevents wash-off. Spray the interior including ceilings, walls, beams, door posts, and floor (excepting troughs and water fountains) around doors and on the sides of buildings where flies breed. Hand sprayers are not as satisfactory but may be used if the job is done thoroughly. They may also be used for spraying between regular applications with power equipment.

For the Control of Aphids on Apples, Cherries, Tomatoes: 1.5 pints in 100 gallons of water. Apply when insects first appear. Repeat the application when necessary. Apply a minimum of 1.5 gallons of spray per acre to Apples and Cherries, and a minimum of 3.0 gallons per acre on Tomatoes. Apply no more than 3.6 pounds actual Lindane per acre on apples, 1.0 pounds actual Lindane per acre on cherries, nor 0.75 pounds actual Lindane per acre on tomatoes. Results are secured if this material is applied when there is a breeze. Do not apply after fruit begins to form on cherries. On apples do not apply within 60 days of harvest.

For Residual Control of Flies in Barns: For rough surfaces, use 1 gallon and 1 pint, and for smooth surfaces or for floors, use up to 2 gallons of this material per 100 square feet. About 1 gallon of finished spray to each 500 square feet until surface is thoroughly wet and nearly to the point of dripping. Repeat when fly population begins to build up again in dairy barns or milk rooms.

Control of Roaches, Ants, Mosquitoes, Midges: The above will also control these pests if spray is thoroughly applied to crevices, baseboards and other hiding places.

Painting Surfaces: Use 1 pint of this material to 2 gallons of paint on painting surfaces where pests congregate on ceilings, walls, and around doors, on and around windows and window sills, on baseboards and in cracks. Repeat when necessary.

Precautions: Cover mangers and water fountains in trough application is made and wash down mangers and water troughs after application. If the surfaces were accidentally contaminated, wash mangers and fountains before the surfaces dry.

Do not let any of the spray come in contact with animals. Remove animals from barns before spraying such buildings. If animals are contaminated, do not feed to animals.

Dealers Should Sell in Original Packaging

Terms of Sale or Use: On purchase of this product, the buyer agrees to the following conditions:

Warranty: FMC makes no warranty, expressed or implied, for the use of this product other than indicated on the label. FMC warrants the product is sold as is. Buyer and user assume all use and or handling and or storage of this material if use and or handling and or storage is contrary to label directions.

Directions and Recommendations: Follow directions on label and method of application, weather and crop conditions. Do not use other chemicals not specifically recommended and do not use other factors in the use of this product are beyond the control of the user and are assumed by the user at his own risk.

Use of Product: FMC's recommendations for the use of this product are based upon tests believed to be reliable. The user assumes responsibility for use beyond the control of the manufacturer, expressed or implied, is made as to the effects of such use. Results may be obtained if not used in accordance with directions on label and safe practice.

Damages: Buyer's or user's exclusive remedy for damages, if any, of warranty or negligence shall be limited to direct damages exceeding the purchase price paid and shall not include consequential damages.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Pesticide spray mixture or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Do not reuse container. To dispose of container, triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill, or bury in a safe place. Do not cut or weld this container. Consult Federal, State or local disposal authorities for approved alternative procedures.

Do not use in undiluted form.

Do not allow to freeze.

Do not use in poultry houses.

Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Method of Application: Use any pressure sprayer adjusted so as to avoid too much mist as a coarse spray prevents waste of material. Spray the interior including ceilings, walls, beams, door, windows, posts, and floor (excepting troughs and water fountains) and outside around doors and on the sides of buildings where flies accumulate. Hand sprayers are not as satisfactory but may be used in small operation if the job is done thoroughly. They may also be used for spot spraying between regular applications with power equipment.

For the Control of Aphids on Apples, Cherries, Tomatoes: Spray with 1 pint in 100 gallons of water. Apply when insects first appear and repeat the application when necessary. Apply a minimum of 300 gallons of spray per acre to Apples and Cherries and a minimum of 20 gallons per acre on Tomatoes. Apply no more than 3.6 pounds actual Lindane per acre on apples, 1.0 pounds actual Lindane per acre on cherries, nor 0.75 pounds actual Lindane per acre on tomatoes. Best results are secured if this material is applied when there is little or no breeze. Do not apply after fruit begins to form on cherries or tomatoes. On apples do not apply within 60 days of harvest.

For Residual Control of Flies in Barns: For rough surfaces use 1 gallon and 1 pint, and for smooth surfaces or for longer residual effect use up to 2 gallons of this material per 100 gallons of water. Use about 1 gallon of finished spray to each 500 square feet of surface or until surface is thoroughly wet and nearly to the point of runoff. Repeat when fly population begins to build up again. Do not use in dairy barns or milk rooms.

Control of Roaches, Ants, Mosquitoes, Midges: The above application will also control these pests if spray is thoroughly applied to cracks, crevices, baseboards and other hiding places.

Painting Surfaces: Use 1 pint of this material to 2 gallons of water painting surfaces where pests congregate on ceilings, side walls, on and around doors, on and around windows and window screens, and on baseboards and in cracks. Repeat when necessary.

Precautions: Cover mangers and water fountains in the barns before application is made and wash down mangers and water fountains after application. If the surfaces were accidentally sprayed wash mangers and fountains before the surfaces dry.

Do not let any of the spray come in contact with animal feeds. Remove animals from barns before spraying such buildings. If feed becomes contaminated do not feed to animals.

Dealers Should Sell in Original Packages Only.

Terms of Sale or Use: On purchase of this product buyer and user agree to the following conditions:

Warranty: FMC makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Except as so warranted, the product is sold as is. Buyer and user assume all risk of use and or handling and or storage of this material when such use and or handling and or storage is contrary to label instructions.

Directions and Recommendations: Follow directions carefully. Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller and are assumed by buyer at his own risk.

Use of Product: FMC's recommendations for the use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice.

Damages: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages.
