50 Pounds Net Weight

KOLODUST[®] C-O-C-S[®] 50-3 DUST

Niagara Kolodust C-O-C-S 50-3 Dust is a product containing Kolodust and Copper Oxychloride Sulfate, which is a neutral insoluble copper. May be applied with ground or airplane application equipment.

DIRECTIONS FOR USE

APPLES AND PEARS (Western States): To control Fire Blight and Scab. Use at the rate of 40-50 pounds per acre. Apply during the bloom period for the control of Blight. All blossom must be protected ahead of periods of high humidity. Number of applications to be determined by length of the bloom period. For Scab protection after the bloom period use a suitable fungicide which does not contain copper. Do not use on Anjou or Comice varieties of Pears.

INERT INGREDIENTS: .. .	55.00%
	100.00%

The copper present is in the form of Basic Sulphate and Chloride.

CAUTION

KEEP OUT OF REACH OF CHILDREN

CONTAINS BENTONITE SULPHUR

This product contains 13.5 per cent bentonite sulphur is made by the adsorption of fused sulphur into bentonite in the proportions of thirty parts sulphur and seventy parts bentonite. A portion of the sulphur particles are very minute, some of them colloidal. The process of manufacture and the character of the sulphur particles impart to the product distinctive properties with respect to toxicity to certain fungi, persistence on plants, suspensibility in spray tank and safety to host plants.

USAGE CAUTION

Applications of materials containing sulphur should not be made just prior to or during periods of excessively high temperature or within 10 days to 2 weeks of an oil spray.

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply only as specified on this label.

Do not apply when weather conditions favor drift from the areas treated. Do not apply when runoff is likely to occur.

DISPOSE OF WASTES by burying in non-crop land away from water supplies. Empty bags should be buried with wastes or burned. Keep out of Smoke.
