Thiodan® 3 Parathion 1 Tobacco Dust

INSECTICIDE

DIRECTIONS FOR USE

CROP: TOBACCO

INSECTS: Hornworms, budworms, grasshoppers, flea beetles, aphids, suckflies, cabbage loopers and stink bugs

Make application at the rate of 15 to 25 pounds per acre (amount depending on the size of the plants) under calm conditions with a dusting machine that will give thorough coverage of all plant surfaces. Repeat applications as necessary.

CAUTION: Do not use within 5 days of priming or 15 days of cutting. Avoid plant juices coming in contact with skin or other parts of the body of those engaged in cutting crop.

Workers entering treated areas within 24 hours should wear protective clothing.

USAGE CAUTIONS

First Aid Treatment

ANTIDOTE: If swallowed. Give a tablespoonful of salt in a glass of warm water and repeat until vomit fluid is clear. Have victim lie down and keep quiet. Call a Physician IMMEDIATELY! If on skin. In case of contact, remove contaminated clothing and immediately wash skin with soap and water.

ATROPINE IS ANTIDOTAL: Keep on hand an emergency supply of 20 tablets, grains 1/100. In case of poisoning take 3 tablets (gr. 1/100) and call physician at once.

PHYSICIAN: Enough atropine must be given in the shortest practical time to produce dilation of pupils. Patient must be under constant supervision and additional atropine may be necessary without delay. Clear chest by postural drainage. Use artificial respiration and oxygen if patient becomes comatose. Use of airway may be necessary.

Parathion is a cholinesterase inhibitor and treatment of poisoning should include the use of atropine; Thiodan produces central nervous system excitation which responds to the barbituric acid derivatives.

WARNING: POISONOUS if Swallowed, Inhaled or Absorbed Through Skin! Rapidly Absorbed Through Skin! Avoid breathing dust. Do not get in eyes, on skin or on clothing. Wear natural rubber gloves, protective clothing and goggles. In case of contact wash immediately with soap and water. Wear a mask or respirator passed by the U. S. Department of Agriculture of parathion-Thiodan mixtures. Keep all unprotected persons out of operating areas or vicinity where there may be danger of drift. Vacated areas should not be re-entered until drifting insecticide and volatile residues have dissipated. Do not contaminate feed and foodstuffs. Wash hands, arms and face thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and hot water before re-use.
