LIQUID MC DEFOLIANT

DIRECTIONS FOR USE

Liquid MC Defoliant may be applied by ground or air. Material is to be diluted with the proper amount of water, not to be applied straight. Thorough coverage is essential for adequate defoliation and a second application may be necessary under some conditions. The spray must penetrate to all leaves as only those actually sprayed will be defoliated. **GROUND SPRAYER APPLICATION:** Add the recommended amount of Liquid MC Defoliant in sufficient water to give adequate coverage. This will range from 15 to 30 gallons of water per acre according to crop and size of plants. Six to eight nozzles per row are usually necessary to obtain good coverage with ground sprayers. **AIR APPLICATION:** Apply the required amount diluted to 10 gallons of water per acre. For best results the swath width should not exceed the wing span. Do not apply in windy weather or at mid-day heat.

COTTON: Use 2 to 2½ gallons per acre in necessary amount of water by ground or airplane application. Do not apply within 7 days of harvest. Do not graze treated areas or feed gin waste to livestock.

FACTORS LIMITING DEFOLIATION: Plants must be mature to get proper results. Slight yellowing of foliage and a reddish tinge on the leaves and stems are the usual signs of maturity. Leaves of a mature plant are less firmly attached and can be dislodged with a clean break by a slight downward pull. Plants should not be drought stricken as tough wilted leaves do not permit proper uptake of the chemical. Defoliants applied when plants are drought stricken usually cause the leaves to die, but remain on the plant. Dews are not normally necessary with Liquid MC Defoliant. Cold temperatures will decrease the efficiency of this material.

Do not allow this material to drift onto neighboring crops or non-crop areas. Do not use in a manner or at a time other than in accordance with label directions because animal, plant or crop injury, illegal residues or other undesirable results may occur.

Liquid MC Defoliant is not selective in action. AVOID CONTACT WITH OR DRIFT TO OTHER DESIRABLE PLANTS OR CROPS. To avoid drift do not apply in windy weather. Do not dump or rinse equipment into irrigation water. Do not store or ship next to strong acids or emulsifiable concentrates. If entire container is not used, close container tightly. For added safety against fire and corrosion, aircraft and other equipment used in application should be washed down thoroughly before and after use.

ENVIRONMENTAL AND DISPOSAL CAUTIONS

Do not apply when weather conditions favor drift from the areas treated. Do not apply where run-off is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not re-use empty 1 and 5 gallon containers. Destroy them by perforating or crushing. Return drum to reconditioner or destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.

Dealer Should Sell in Original Packages Only.

TERMS OF SALE OR USE: On purchase or use of this product buyer and user agree to the following conditions:

WARRANTY: FMC warrants that this product, as of the time of sale by FMC, (1) conforms to the ingredient statement on the label, and (2) is reasonably fit for the purposes set forth in the Directions for Use. EXCEPT AS SO WARRANTED THE PRODUCT IS SOLD AS IS. FMC MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED.

DAMAGES: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages. Notice of any claim must be reported to FMC within 10 days of discovery by buyer or user, failing which buyer or user waives any claim for such damages.

EXCUSE FROM NON-CONTROLLABLE CONDITIONS: Because of certain critical conditions created or incurred by buyer or user or over which FMC has no control, buyer and user, as a condition of purchase or use, assume responsibility for and release FMC from, liability arising out of the handling or use of the product attributable to such causes. No person is authorized to vary or waive any statement contained herein.
