SUPERIOR 60 OIL

INSECTICIDE

USE A REG. NO. 274-2646

DIRECTIONS FOR MIXING

Fill the spray tank about one-third full of water, start the agitator and pour in the required amounts of Superior Oil. If other spray materials are to be used with the oil, mix the other materials thoroughly with the water in the spray tank, and then add the oil last, as the filling of the tank is being completed.

DIRECTIONS FOR USE

For use on all insects and arachnids which are susceptible to the action of this insecticide.

For use on all insects and arachnids which are susceptible to the action of this insecticide.

For use on all insects and arachnids which are susceptible to the action of this insecticide.
