ENVIRONMENTAL HAZARDS

Do not use this material in a way which will result in the discharge of water into streams or rivers or into any other body of water. Do not use this material in a way which will result in the discharge of water into any other body of water.

Do not use this material in a way which will result in the discharge of water into any other body of water.

Do not use this material in a way which will result in the discharge of water into any other body of water.

DIRECTIONS FOR USE

Use in accordance with Federal law. Use this product in a manner consistent with its labeling.

Apply in sufficient water for thorough coverage when insects first appear and repeat as necessary to maintain control. When applying by aircraft mix the recommended amount with sufficient water to provide a minimum of 10 quarts of finished spray per acre. Do not apply in wind.

On Cotton to control Boll Weevil, Bollworm, Cabbage Looper, Stink Bugs, Lygus Bugs, Cotton Leaf Perforator, Aphids, Armyworms, Thrips, Flea Hoppers, and Cotton Leafworm use 2 quarts per acre. Do not apply after bolls open. Do not graze meat or dairy animals in treated fields. Workers entering fields within 24 hours of application should wear protective clothing.

On Artichokes to control Artichoke Aphid, Artichoke Plume Moth and Green Leafhopper use 1 1/2 quarts in sufficient water to treat one acre. Do not apply within 7 days of harvest.

On Beans, Succulent, Dried to control Cucumber Beetle, Aphids, Bean Leaf Beetle, Green Thrips, Leafhoppers, Stinkbugs and Leafminer use 1 1/2 quarts in sufficient water to treat one acre. Make no more than 3 applications not apply within 15 days of harvest. Do not apply to lima beans as injury may result. Do not feed treated threshings to livestock in a row to graze in treated fields.

On Broccoli, Cabbage and Cauliflower to control Cabbage Looper, Imported Cabbage Worm, Diamondback Moth larvae, Cross striped cabbageworm, Flea Beetles, Stink Bugs, Leafhoppers and Aphids. Use at the rate of 1 quart per acre. On Broccoli do not apply within 7 days of harvest and on Cabbage do not apply within 10 days of harvest. On Cauliflower do not apply within 14 days of harvest.

On Head Lettuce to control Cabbage Looper, Aphids, Diamondback Moth larvae, Imported Cabbage Worm, Armyworms, Flea Beetles, and Leafhoppers use 1 quart per acre. Do not apply more than 3 times after planting. Do not apply within 14 days of harvest. Remove outside leaves at harvest. Do not feed crop waste to livestock.

On Potatoes to control Flea Beetle, Colorado Potato Beetle, Leafhopper, Aphids, Potato Tuberworm and Potato Psyllid use 1 1/2 quarts in sufficient water to treat one acre. Do not apply within 5 days of harvest.

On Walnuts to control Walnut Aphid and the scale crawlers use 2 1/2 gallons in sufficient water to treat one acre. Do not apply after blossoms fall. Do not graze livestock in treated groves within 7 days of treatment.

Do not use this material in a way which will result in the discharge of water into any other body of water.

STORAGE AND DISPOSAL

Do not use or store near water.

Do not store at temperatures below 40° F.

Use equipment and containers as DISPOSABLE WASTES by burying at least 18 inches deep in non-crop lands away from water supplies. Do not use, refill, or smash in part and bury with wastes.

Dealers Should Sell in Original Packages Only

Terms of Sale or Use
On purchase of this product buyer and user agree to the following terms:

Warranty
EFCO makes no warranty, expressed or implied, concerning the use of this product. The material indicated on the label is warranted. The product is warranted to be free from defects and to perform as intended. Buyer and user assume all risk of use and of handling and of storage of this material when sold, used and handling as directed. See contrary label instructions.

Directions and Recommendations
Use all directions carefully. Do not use in high temperatures, weather, or in high humidity. Do not mix with other materials unless recommended and then only as directed. Do not use this product in a way which is not recommended and are assumed by user at his own risk.

Use of Product
EFCO makes no representation for the use of this product in a way which is not recommended. The use of this product beyond the directions is at the user's own risk. The user assumes all liability for the effects of such use. The user is to be held responsible for any damage caused by use of this product in a way which is not recommended.

Damages
