# CITRUS SOLUBLE OIL -- MEDIUM

## MIXING DIRECTIONS

Before using this product, be sure the spray tank is clean and contains just enough water to cover the agitator shaft. If an injector is used, first add 25 to 50 gallons of water to tank with engine running to provide good pressure. Then put injector suction tube into the measured amount of spray oil, opening injector valve to allow the oil to be sucked into the tank. Then fill the tank with water. With enough water in tank to cover agitator shaft and with shaft in motion, add desired amount of this material for full tank. Pump this mixture through the overflow and back into tank for about two minutes to insure proper emulsification. Fill with water, adding other desired materials as tank is filling. Keep agitator running at all times. Sufficient agitation must be present to insure proper emulsification at all times. Keep agitator running at all times.

## DIRECTIONS FOR USE

Apply when pests first appear. Do not use in undiluted form.

**CITRUS (Oranges, Lemons, Grapefruit):** Use 1 1/2 to 2 gallons of this material per 100 gallons of water for control of Yellow Scale, Citricola Scale, Red Scale, Soft Brown Scale and Citrus Red Mite.

**OLIVES:** Use 1 1/2 to 2 gallons of this material per 100 gallons of water for control of Olive Scale, Black Scale and Oleander Scale.

Special attention has been given in the formulation of Citrus Soluble Oil to make it compatible with wettable powder materials such as Phoskil 25 Spray, Malathion 25 Spray, and products used for the correction of minor element deficiencies.

## INSECTICIDE-MITICIDE

EPA REGISTRATION NO. 279-2333 AA

ACTIVE INGREDIENT:	BY WT.
Petroleum Oil .....	99.30%
INERT INGREDIENTS: .....	0.70%
	<hr/> 100.00%

Classification — Medium

Unulfonated Residue — 92.0% Minimum

Dealer Should Sell in Original Packages Only.

TERMS OF SALE OR USE: Or purchase or use of this product buyer and user agree to the following conditions:

WARRANTY: FMC warrants that this product, as of the time of sale by FMC, (1) conforms to the ingredient statement on the label, and (2) is reasonably fit for the purposes set forth in the Directions for Use. EXCEPT AS SO WARRANTED THE PRODUCT IS SOLD AS IS. FMC MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED.

DAMAGES: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages. Notice of any claim must be reported to FMC within 10 days of discovery by buyer or user, failing which buyer or user waives any claim for such damages.

EXCUSE FROM NON-CONTROLLABLE CONDITIONS: Because of certain critical conditions created or incurred by buyer or user or over which FMC has no control, buyer and user, as a condition of purchase or use, assume responsibility for and release FMC from, liability arising out of the handling or use of the product attributable to such causes. No person is authorized to vary or waive any statement contained herein.

## CAUTION

### KEEP OUT OF REACH OF CHILDREN

Harmful if Swallowed. Avoid inhalation of spray mist.

### ENVIRONMENTAL AND DISPOSAL CAUTIONS

Do not use this material if it does not emulsify.

Use efficient equipment of the proper type. Avoid spraying during or immediately prior to hot or freezing weather, nor during winds, rain or other unsuitable conditions; avoid overspray or double-spraying. Plants should be sprayed only when in vigorous condition and when their moisture condition is suitable.

Do not apply when weather conditions favor drift from the areas treated. Do not apply when run-off is likely to occur. Do not use in a manner or at a time other than in accordance with label directions because animal, plant or crop injury, illegal residues or other undesirable results may occur.

Do not make an oil spray application within 2 weeks prior to or after an application of sulfur. On Citrus do not make an oil application within 60 days prior to or after an application of Sulfur.

Do not re-use empty 28 gallon containers. Destroy them by perforating or crushing. Bury or discard in a safe place away from water supplies.
