Environmental Hazards

Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not apply when weather conditions favor drift from the areas treated. Do not apply where runoff is likely to occur. Do not use in a manner or at a time other than in accordance with label directions because animal, plant or crop injury, illegal residues or other undesirable results may occur.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Pesticide spray mixture or residue that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Do not reuse empty container. Return empty 28 gallon drums to pesticide supplier. Alternatively to dispose of container, triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill or bury in a safe place. Do not cut or weld this container. Consult Federal, State or local disposal authorities for approved alternative procedures.

Do not use if material does not emulsify.

Apply when pests first appear. Do not use in undiluted form.

Do not make an oil spray application within 2 weeks prior to or after an application of sulfur. On Citrus do not make an oil application within 60 days prior to or after an application of sulfur.

Use efficient equipment of the proper type. Avoid spraying during or immediately prior to hot or freezing weather, not dry winds, rain or other unsuitable condition, avoid overspraying or double spraying. Plants should be sprayed only when in vigorous condition and with their moisture condition as follows:

Mixing Directions

Before using this product, be sure the spray tank is clean and contains just enough water to cover the agitator shaft. If an injector is used, first add 25 to 50 gallons of water to tank with engine running to provide good pressure. Then put injector suction tube into the measured amount of spray oil, opening injector valve to allow the oil to be sucked into the tank. Then fill the tank with water. With enough water in tank to cover agitator shaft and with shaft in motion, add desired amount of this material for full tank. Pump this mixture through the overflow and back into tank for about two minutes to insure proper emulsification. Fill with water, adding other desired materials as tank is filling. Keep agitator running at all times. Sufficient agitation must be present to insure proper emulsification at all times.

Citrus (Oranges, Lemons, Grapefruit): Use 1 1/2 to 2 gallons of this material per 100 gallons of water for control of Yellow Scale, Citricola Scale, Red Scale, Brown Soft Scale and Citrus Red Mite

Olives: Use 1 1/2 to 2 gallons of this material per 100 gallons of water for control of Olive Scale, Black Scale and Oleander Scale

Special attention has been given in the formulation of Citrus Soluble Oil to make it compatible with wettable powder materials such as Phoskil 25 Spray, Malathion 25 Spray, and products used for the correction of minor element deficiencies

Dealers Should Sell in Original Packages Only.

Terms of Sale or Use: On purchase of this product buyer and user agree to the following conditions

Warranty: FMC makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Except as so warranted, the product is sold as is. Buyer and user assume all risk of use and/or handling and/or storage of this material when such use and/or handling and/or storage is contrary to label instructions.

Directions and Recommendations: Follow directions carefully. Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller and are assumed by buyer at his own risk.

Use of Product: FMC's recommendations for the use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice.

Damages: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages.
