PAR F 70 SOLUBLE OIL

DIRECTIONS FOR MIXING

Before using this product be sure the spray tank is clean and contains enough water for the operation. Add the required amount of PAR F 70 SOLUBLE OIL to the tank with water flowing.

When water is used first add 25 to 50 gallons of water to tank with engine running to provide good pressure. Then put injector suction tube into the measured amount of spray oil, opening injector valve to allow the oil to be sucked into the tank. Then fill the tank with water.

Use only in equipment with mechanical or paddle agitation. Be sure spray tank is clean. Add enough water in tank to cover agitator shaft. Add desired amount of this material to the tank with agitator in motion. Pump this mixture through the overflow and back into tank for about two minutes. If this mixture forms a heavy emulsion it indicates good emulsification. Fill the tank with water and/or other desired materials as tank is filling. Keep agitator running at all times.

DIRECTIONS FOR USE

Apply when insects first appear and repeat as necessary. Do not use undiluted form.

ALMONDS, APRICOTS, CHERRIES, NECTARINES, PEACHES. (Summer Use) For Spider Mites, Leafhoppers, Thrips, Aphids, Scale Insects or Brown Mite Eggs: Use 2 gallons per 100 gallons of water. Dormant or Delayed Dormant Application: For Aphids, Scale Insects or Brown Mite Eggs: Use 2 gallons per 100 gallons of water.

APPLE, PEAR, PLUMS, PRUNES (Summer Use) For Mites, Leafhoppers, Thrips, Aphids, Scale Insects or Brown Mite Eggs: Use 1 gallon per 100 gallons of water. Control of Pear Psylla: Use 2 gallons per 100 gallons of water. Dormant Application: For Aphids, Scale Insects or Brown Mite Eggs: Use 2 gallons per 100 gallons of water.

OLIVES. For Aphids, Scale Insects or Brown Mite Eggs: Use 2 gallons per 100 gallons of water. May be applied during the post bloom through post harvest periods.

WALNUTS. (Summer Use) For Mites, Soft Scales: Use 1 gallon per 100 gallons of water. Apply 200 to 300 gallons of water per acre. Do not apply more than 4 gallons per acre per season. Dormant Application: For Aphids, Scale Insects or Overwintering Mite Eggs: Use 2 gallons per 100 gallons of water. Apply in sufficient water for thorough coverage. Apply a minimum of 200 gallons of water per acre. Do not exceed 4 gallons per acre per season. Do not apply more than 2 gallons per acre per application. Do not apply after leaves have fallen from trees.

USAGE CAUTIONS

Use efficient equipment of the proper type; avoid spraying during or immediately prior to hot or calm weather, hot dry winds, rain or other unsuitable conditions; avoid overspraying or double spraying. Plants should be sprayed only when in vigorous condition and when their moisture condition is suitable.

Do not [illegible] equipment or containers, or handle prior to use in any manner that is other than as specified in this label.

Do not mix with pesticides incompatible with oil.

DISPOSE OF WASTES by burying in non-crop land away from water supplies. Empty 1 and 5 gallon cans should be shredded and buried with wastes. Empty drums should be returned to your pesticide supplier. Do not reuse.

ACCEPTED
MAR 26 1973

Do not apply when weather conditions favor drift from the area treated. Do not apply after runoff is likely to occur. Do not use in a manner or at a time other than in accordance with label directions because unsatisfactory plant or crop injury, residues or other undesirable results may occur.

Dealer Should Sell in Original Packages Only.

TERMS OF SALE OR USE: On purchase or use of this product the user assumes the following conditions:

WARRANTY: Seller warrants that this product, as of the time of sale by Seller, conforms to the chemical statement on the label and is reasonably fit for the purposes set forth in the Directions for Use. EXCEPT AS SO WARRANTED THE PRODUCT IS SOLD AS IS. NIAGARA MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED.

DAMAGES: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid by the buyer or user for the product. In no event shall Seller be liable for special or consequential damages. Notice of any claim for breach of warranty or negligence shall be given to Seller within 10 days of discovery of the facts giving rise to such claim or such claim shall be deemed waived. No action or suit for any such claim or claims may be brought more than one year after the cause of action has accrued.

EXCLUSION FROM NON-CONTROLLABLE CONDITIONS: Because of conditions emanating or arising out of buyer's or user's use or handling of the product which are beyond the control of Seller, and because of the impossibility of Seller to know of the existence of such conditions, Seller shall not be responsible for any loss, injury or damage resulting from the handling, use or misuse of the product whether such loss, injury or damage is caused by the negligence of Seller or otherwise. No person is authorized to alter any of the foregoing terms of sale or use by any statement contained in any bill, sales slip or other document.
