75.00
102.00

CONTAINS BENTONITE-SULPHUR

Contains bentonite-sulphur, the absorption of which is due to the fine particles of bentonite and sulphur. A portion of the bentonite particles are finely divided and of the size of the particles of manufacture. The particles of bentonite-sulphur impart to the product a high degree of stickiness to certain surfaces and to the soil.

Use only on plants and crops which are susceptible to the diseases which this fungicide is designed to control. Do not use on plants which are not susceptible to these diseases. Do not use on plants which are not growing in soil. Do not use on plants which are not growing in soil. Do not use on plants which are not growing in soil.

CAUTION

As a precautionary measure, do not use this fungicide on plants which are not susceptible to the diseases which this fungicide is designed to control. Do not use on plants which are not growing in soil. Do not use on plants which are not growing in soil.

CAUTION
KEEP OUT OF REACH OF CHILDREN
