POISONOUS IF SWALLOWED

This product can kill you if swallowed even in small amounts, spray mist or dust may be fatat if swallowed

goes through clothes.)

Breathing vapors, spray mist or dust may be fatal.

USE ONLY WHEN WEARING THE FOLLOWING PROTECTIVE CLOTHING AND EQUIPMENT DURING MIXING/LOADING, APPLI-CATION, REPAIR, AND CLEANING OF APPLICATION EQUIPMENT, DISPOSAL OF PESTICIDE AND EARLY REENTRY INTO TREATED AREAS: protective suit of one or two pieces covering all parts of the body except the head, hands, and feet; chemical resistant gloves; chemical resistant shoes or chemical resistant gloves; chemical reresistant shoes (or chemical resistant shoe coverings or chemical resistant boots); goggles or face shield; hood or wide brimmed hat; NIOSH approved respirator.

POISONOUS TO FISH AND WILDLIFE

POISON SIGNS (Symptome) METHYL PARATHION is a very dangerous poison. It rapidly enters the body on contact with all skin surfaces and eyes. Clothing wet with this material must be removed immediately. Exposed persons must receive prompt medical treatment or they may die.

Some of the signs and symptoms of poisoning are: Headache, nausoa, vomiting, cramps, weakness, blurred vision, pin-point pupils, tightness in chest, tabored breathing, nervousness, sweating, watering of eyes, drooling or frothing of mouth and nose, muscle spasms and coma.

WORK SAFETY RULES

The National Pesticide Telecommunication Network is available for recommendations regarding poisoning management, emergency treat-ment, and other information regarding the toxicity of methyl parathion. The toll free number for the National Pesticide Telecommunication Network is 1-800-858-7378.

If handled indoors provide mechanical exhaust ventilation. Keep all unprotected persons, children, livestock, and pets away from treated area or where there is danger of drift. Do not rub eyes or mouth with hands. If you feel sick in any way, STOP work and get help right away, See First Aid (Practical Treatment) section.

HANDLE THE CONCENTRATE ONLY WHEN WEARING THE FOL-LOWING PROTECTIVE CLOTHING AND EQUIPMENT:

Wear a protective suit of one or two pieces that covers all parts of the body except the head, hands, and feet. Wear chemical resistant gloves, chemical resistant apron, and chemical resistant shoes, shoe coverings, or boots. Wear goggles or a face shield. Wear a pesticide respirator approved by the National Institute for Occupational Safety and Health under the providement of OCEP part II. under the provisions of 30 CFR part II.

POISONOUS IF BREATHED

IF MIXING/LOACING IS PERFORMED USING A CLOSED SYSTEM, THE FOLLOWING PROTECTIVE CLOTHING AND EQUIPMENT MAY BE WORN AS AN ALTERNATIVE: long-sleeve shirt; long-legged pants; chemical resistant gloves; chemical resistant apron; shoes and socks. Goggles or face shield must be worn when the system is under pressure. All other protective clothing and equipment required for use with open systems must be available nearby.

IF APPLICATION IS PERFORMED USING AN ENCLOSED CAB OR COCKPIT, THE FOLLOWING PROTECTIVE CLOTHING AND EQUIP-MENT MAY BE WORN AS AN ALTERNATIVE: long-sleeve shirt and MENT MAY BE WORN AS AN ALTERNATIVE: long-sleeve shirt and long-legged pants; shoes and socks. Chemical resistant gloves must be available in the cab or cockpit and must be worn during entry to and exit from the application vehicle. All other protective clothing and equip-ment required for use during application must be available in the cab and must be worn when exiting the cab into treated area. When used for this purpose, contaminated clothing may not be brought back into the cab unless in an enclosure such as a plastic bag. REMEMBER— THIS CLOTHING IS INADEQUATE TO PROTECT YOU DURING RE-PAIR AND CLEANING OF APPLICATION EQUIPMENT AND EARLY REENTRY TO TREATED AREAS! REFER TO PROTECTIVE CLOTH-ING AND EQUIPMENT REQUIREMENTS ABOVE.

IMPORTANT! If pesticide comes in contact with skin, wash off with soap and water and contact a physician immediately. Always wash hands, face, and arms with soap and water before smoking, eating, drinking, or toileting.

AFTER WORK: before removing gloves, wash them with soap and water. Take off all work clothes and shoes. Shower using soap and water. Wear only clean clothes when leaving job—do not wear contaminated clothing. Personal clothing worn during work must be stored and laun-dered separately from protective clothing and household articles. Store protective clothing separately from personal clothing. Clean or launder

rs replaced according to instructions included with the respirators. r-retective clothing and protective equipment heavily contaminated or drenched with methyl parathion must be destroyed according to state and local regulations. HEAVILY CONTAMINATED OR DRENCHED CLOTHING CANNOT BE ADEQUATELY DECONTAMINATED. DUR-ING AERIAL APPLICATION, HUMAN FLAGGERS ARE PROHIBITED.

FIRST AID TREATMENT

.

Call a doctor (physician), clinic or hospital immediately. Explain that the victim has been exposed to methyl parathion and describe his condition.

It breathing has stopped, start artificial respiration immediately and maintain until doctor sees victim.

If swallowed, drink 1 or 2 glasses of water and induce vomiting by touching back of throat with tinger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention.

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. See doctor immediately.

NOTE TO PHYSICIAN

Antidole-administer alropine sulfate in large doses, TWO to FOUR Antioole—administer altophie sunate in large doses, two to roome, mg. intravenously or intramuscularly as soon as cyanosis is overcome.
Repeal at 5 to 10 minute intervals until signs of atropinization appear.
PAM chloride is also antidotal and may be administered in conjunction n atropine. DO NOT GIVE MORPHINE OR TRANQUILIZERS. Par-ion is a strong cholinesterase inhibitor affecting the central and pe-chocat incertain and periods.

Ion is a strong choinesterase inhibitor affecting the central and pe-ripheral nervous systems and producing cardiac and respiratory depres-sion. At lirst sign of pulmonary edema, the patient should be given supplemental oxygen and treated symptomatically. Continued absorp-tion of the poison may occur and fatal relapses have been reported after initial improvement; VERY CLOSE SUPERVISION OF THE PATIENT IS INDICATED FOR AT LEAST 48 HOURS.

FOR EMERGENCY ASSISTANCE CALL 716-735-3765 POST TREATED AREA

Consult your State Agricultural Extension Service or Experiment Station regarding posting treated areas.

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to aquatic invertebrates and wildlife. Birds in treated areas may be killed. Do not apply directly to water or wetlands (swamps, marshes, bogs, and potholes). Runoff and drift from target areas may be hazardous to aquatic organisms in adjacent aquatic sites. Do not contaminate water by cleaning of equipment or disposal of wastes.

This product is highly toxic to bees exposed to direct treatment or resi-dues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of irrigation system.

۱,

Reentry into treated fields is prohibited for 48 hours after application, as describe if elsewhere on the label are worn.

Because certain states may require more restrictive reentry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. Inform workers of areas or fields that may not be entered without specific protective clothing, period of time field must be vacated and appropriate actions to take in case of accidental exposure. An example of such information is given under written warnings. When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written warnings must include the following information:

DANGER

Area treated with Methyl Parathion 25 W.P. on (insert date). Do not enter without appropriate protective clothing for 48 hours (in-sert State Department of Agriculture's re-entry interval, if more restrictive).

In case of accidental exposure to pesticide spray or dust, wash the skin thoroughly with soap and water. Remove contaminated clothing and wash before reuse. If in eyes, flush with plenty of water. If inhated, go to an area where the pesticide has not been applied. Get medical attention if needed.

STORAGE AND DISPOSAL

ŧ

Pesticide Storage Keep out of reach of children and animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use, fold and roll back bags, clamp and close tightly. Do not put concentrate or dilute material into food or drink containers. Do not contaminate other pesticides, fertilizers, water, food or feed by storage or disposal.

In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confine spills, Call FMC collect: (716) 735-3765

To confine spill: If liquid, dike surrounding area or absorb with sand, cat litter or commercial clay. If dry material, cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

Pesticide Disposal

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticke or Environ-mental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal

Completely empty bag into application equipment. Then dispose of empty bag in a sanitary tandfill or by incineration, or, if allowed by State and local authorities, by burning. It burned, stay out of smoke.

ENDANGERED SPECIES RESTRICTIONS

The following restrictions apply to use of this product after February 1, 1988

Before using this pesticide on wheat, oats, and/or barley in the counties listed below, you must obtain the PESTICIDE USE BULLETIN FOR PROTECTION OF ENDANGERED SPECIES for the county in which the product is to be used. The bulletin is available from your County Extension Agent, State Fish and Game Office, or your pesticide dealer. Use of this product in a manner inconsistent with the PESTICIDE USE BULLETIN FOR PROTECTION OF ENDANGERED SPECIES is a violation of Federal laws.

Not for use or storage in or around the home.

Apply when insects first appear and repeat as necessary. Apply recommended rates in sufficient water to thoroughly cover one acre. (With ground application equipment apply a minimum of 10 gals.; by air apply a minimum of 2 gals of finished spray per acre. Apply with equipment with sufficient agitation to keep this product in solution at all times. Do not use in undiluted form. Observe days interval between last application and harvest indicated by number in () following the crop

Alfalfa (Seed and Hay), Clover (Seed and Hay) and Votch: Spotted Alfalfa Aphid, Aphids, Armyworms (up to 3rd instar), Leafhopper---Use 2-5 pounds per acre. At a rate of 4 pounds or less per acre do not apply within 15 days of harvest. At a rate above 4 pounds do not apply within 20 days of harvest. In California do not apply more than 36 pounds per acre. Wildlife in treated areas may be killed. Do not apply if the crop or words in the treatment acres are a blocm. weeds in the treatment area are in bloom.

Artichoke (7), Celery (15), Carrots (15), Peas (15), Peppers (15): Aphids, Armyworms (up to 3rd instar), Fleabeetles, Leathopper-Use 4 pounds per acre. Do not use treated carrot tops for food or feed. Co not apply if the crop or weeds in the treatment area are in bloom.

Beans Dry (15) Green and Lima (21), Tomatoes (15), Broccoll (21), Brussels Sprouts (21), Cabbage (21), Cauliflower (21): Aphids, Ar-myworms (up to 3rd instar), Fleabeetles, Leathopper—Use 4-6 pounds per acre. Do not apply if the crop or weeds in the treatment area are in bioom.

Lettuce (21), Spinach (21): Aphids, Armyworms (up to 3rd instar), Flea Beetle, Leathopper—Use 3-4 pounds per acre.

Small Grains (15): (Barley, Oats, Wheet): Aphids-Use 2-3 pounds per acre. Armyworms (up to 3rd instar), Leafhoppers-Use 3 pounds ber acre.

Dealers Should Seli in Original Packages Only,

Terms of Sale cr Use: On purchase of this product buyer and user agree to the frillowing conditions:

Warranty: FMC makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Except as so warranted, the product is sold as is. Buyer and user assume all risk of use and/or handling and/or storage of this material when such use and/ or handling and/or storage is contrary to label instructions.

· • .

Directions and Recommendations: Follow directions carefully. Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller and are assumed by the buyer at his own risk.

Use of Product: FMC's recommendations for the use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice.

Demages: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages.
