NIAGARA LABEL
Furadan 10 Granules

USDA REG. NO.
279-2712

PROPOSED NEW USE

CROP	TO CONTROL	REMARKS
Field Corn	This treatment will aid in the control of first generation European corn borer and reduce losses due to stalk rot.	Using 7-1/2 to 10 pounds of Furadan 10 Granules, apply as a 7 inch band to 13,000 linear feet of row or on an acre basis using 40 inch row spacing. Incorporate into the top 1 inch of soil by making application ahead of press wheels, or by use of special covering devices, or by dragging a short length of chain behind the press wheels.

ACCEPTED

JUN 3 1971

UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND QUATERNARY ACT
FOR ECONOMIC POISON REGISTERED
UNDER NO. 279-2712 SUBJECT
TO ATTACHED COMMENTS.

NOTE: Furadan 10 Granules is registered for use on field corn for the control of corn rootworms. The new uses proposed in this application do not alter the registered use pattern. Data supporting the proposed new uses accompany this application.
