APPLICATION FOR AMENDED REGISTRATION

NIAGARA PRODUCT

EPA REG. NO.

FURADAN 3 Granules

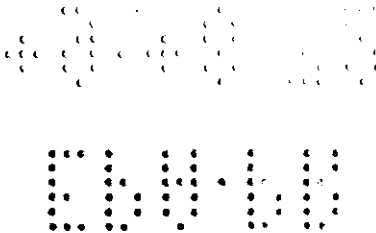

279-2792

PROPOSED NEW USE

CROP	PEST	REMARKS
Rice (Ark., La., Miss., Texas)	Rice water weevil	Apply 15 to 20 pounds of FURADAN 3 Granules per acre one day before or within 21 days after permanent flooding. Do not make more than one application per season. Occasional tip burn may occur when propanil is used for weed control.

NOTE: FURADAN 3 Granules is registered for control of rice water weevil on rice. The presently registered use pattern is for 15 to 20 pounds of FURADAN 3 Granules per acre to be applied one day before or within seven days after permanent flooding. The proposed new use would allow application up to 21 days after permanent flooding.

Data supporting this proposed label change are included in the attached document.
