## FUNGICIDE

EPA Reg. No. 279-2925

### ACTIVE INGREDIENTS:

Sulfur..... 75.4%

Dichloro (2,3-Dichloro-1,4-naphthoquinone).... 3.5%

INERT INGREDIENTS:..... 21.1%

100.0%

Sulfur Fineness 99.7% thru 325 mesh.

SPECIMEN LABEL

*Dec. 8, 1972*

**CAUTION**

*279-2925*

**KEEP OUT OF REACH OF CHILDREN**

May cause skin irritation. Avoid contact with skin, eyes or clothing. Avoid inhalation of dust or spray mist. Wear protective clothing. Wash with soap and water after using. Avoid storage near feed and food products.

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Apply this product only as specified on this label.

Rinse equipment and DISPOSE OF WASTES by burying in non-crop lands away from water supplies. Container should be disposed of by burying with wastes or by burning. Keep out of smoke.

This product contains 13.9% bentonite sulfur. Bentonite sulfur is made by the absorption of fused sulfur into bentonite in the proportions of thirty parts sulfur and seventy parts bentonite. A portion of the sulfur particles are very minute, some of them colloidal. The process of manufacture and the character of the sulfur particles impart to the product distinctive properties with respect to toxicity to certain fungi, persistence on plants, suspensibility in spray tank and safety to host plants.

### DIRECTIONS FOR USE

**Directions for Mixing**—Fill the spray tank with water until the agitator blades are covered. Start the engine, and with the agitator in motion lift in slowly the required amount of material, holding the bag well into the tank opening to avoid drifting of dust into the face of the operator. Finish filling the tank and apply immediately. Keep the agitator running at all times.

Apply the following recommended rates in sufficient water to thoroughly cover one acre. (With ground application equipment use a minimum of 300 gallons of diluted spray per acre on pome fruits and a minimum of 200 gallons of diluted spray per acre on stone fruits.)

**APPLE: Scab**—Use 3 1/2 pounds per 100 gallons of water. Apply on a protective schedule at 5 to 7 day intervals from delayed dormant through the early cover sprays. May be applied on apples up to 1 day of harvest; however, for late cover applications another suitable summer fungicide should be used.

**PEACH: Brown Rot**—For blossom and twig brown rot blossom blight use 3 1/2 pounds per 100 gallons of water at pink bud stage, full bloom and just before shuck fall. When cool, wet weather occurs, resulting in a prolonged bloom period, apply every 4 days. As a preharvest spray use 3 1/2 pounds per 100 gallons of water at 14 and 7 days before harvest. Do not apply within 7 days of harvest.

**CHERRY: Brown Rot**—Use 3 1/2 pounds per 100 gallons of water. For Twig Brown Rot begin at pink bud. Repeat at full bloom and before shuck shed or every 4 days in cool, wet weather. For Blossom Blight, apply at popcorn, full bloom and petal fall. For Fruit Rot apply at 7 to 10 day intervals from petal fall to 3 days from harvest. Do not apply within 3 days of harvest.

**PLUM, PRUNE: Brown Rot Blossom Blight, Coryneum Blight**—Use 3 1/2 pounds per 100 gallons of water at pink, full bloom and pre-shuck fall or at 4 day intervals during cool, wet weather. **Brown Rot Fruit Rot**—Apply in cover sprays as needed. Do not apply within 3 days of harvest.

**NOTE: DO NOT APPLY WITHIN 10 TO 14 DAYS OF AN OIL SPRAY. DO NOT APPLY PRIOR TO OR DURING PERIODS OF EXCESSIVELY HIGH TEMPERATURES.**

**DO NOT ALLOW THIS MATERIAL TO DRIFT ONTO NEIGHBORING CROPS OR NON-CROP AREAS OR USE IN A MANNER OR AT A TIME OTHER THAN IN ACCORDANCE WITH LABEL DIRECTIONS BECAUSE ANIMAL, PLANT OR CROP INJURY, ILLEGAL RESIDUES OR OTHER UNDESIRABLE RESULTS MAY OCCUR.**

**Dealers Should Sell in Original Packages Only.**

**TERMS OF SALE OR USE:** On purchase or use of this product buyer and user agree to the following conditions:

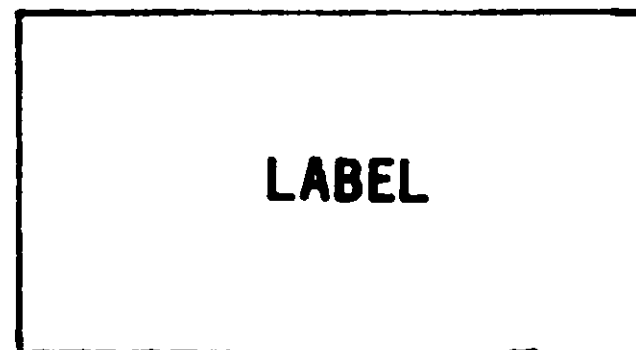

**WARRANTY:** Niagara warrants that this product, as of the time of sale by Niagara, (1) conforms to the ingredient statement on the label, and (2) is reasonably fit for the purposes set forth in the Directions for Use. EXCEPT AS SO WARRANTED THE PRODUCT IS SOLD AS IS. NIAGARA MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED.
