

Code: 3305

# DIPEL® 2 SULFUR 25 DUST

## DIRECTIONS FOR USE

**GRAPES:** Omnivorous Leafroller, Grape Leafroller, and Powdery Mildew — Use 20 to 25 pounds per acre making 4 to 6 applications beginning with bloom; or apply when shoots are six inches long, repeat before blossoms open and then repeat as necessary. For Powdery Mildew control, sulfur alone should be used as necessary throughout the season. Apply as soon as possible after eggs hatch and before larvae are protected by leaf folds or rolls. Do not allow workers to enter treated area to engage in any activity requiring contact with treated foliage for 24 hours after application. When grown for processing consult processor before applying sulfur. Concord and other Labrusca type grapes may be injured by sulfur.

## USAGE CAUTIONS

Do not use for dried fruit.

Applications of materials containing sulfur should not be made just prior to or during periods of excessively high temperatures or within 10 days to 2 weeks of an oil spray.

Do not use in a manner or at a time other than in accordance with label directions because animal, plant or crop injury, illegal residues or other undesirable results may occur.

## INSECTICIDE

EPA REG. NO. 279-2964 AA

ACTIVE INGREDIENTS:	BY WT.
<b>Bacillus thuringiensis</b> Berliner, 320 International Units of Potency per mg (at least 0.5 billion viable spores per gm)*	0.064%
Sulfur	25.000%
INERT INGREDIENTS:	74.936%
	100.000%

\*Equivalent to potency of 0.145 billion International Units of Potency per pound of this product.
