Subject: Supplemental Label for Use on Field Corn, Popcorn and Field Corn Grown for
Seed in Illinois, Indiana, Kentucky, Missouri and Ohio
Capture 2EC Insecticide/Miticide
EPA Reg. No. 279-3069
Your Resubmission Dated January 22, 2002

Dear Dr. Chukwunenyne:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided you make the following change:

1. Revise the second restriction regarding the maximum amount of active ingredient that may be applied per season to read as follows:

"Do not apply more than 0.3 pound active per acre per season including pre-plant, at plant plus foliar applications."

A stamped copy of the label is enclosed for your records. Please submit two (2) copies of your final printed label before you release the product for shipment. This supplemental label must be incorporated into the product's main labeling within one year. If you have any questions regarding this action, please contact Susan Stanton of my team at (703) 305-5218.

Sincerely,

A handwritten signature in cursive script that reads "Susan L. Stanton, for".

WARNING
AVISO**

This label must be in the possession of the user at the time of application.
Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read and follow all applicable precautionary statements, use directions and restrictions on the full Capture 2EC label.

| |
|--|
| RESTRICTIONS |
| Do not apply more than 0.1 pound active per acre per season as an at plant application. |
| Do not apply more than 0.3 pound active per acre per season including at plant plus follow applications. |
| Do not apply within 30 days of harvest. |
| Do not graze livestock in treated areas or cut treated crops for feed within 30 days of the last application. |
| Use of ultra low volume (ULV) application on corn is prohibited. |
| Do not make aerial or ground applications to corn if heavy rainfall is imminent. |
| REMARKS |
| General: Apply in a minimum of 2-5 gallons of finished spray per acre by aircraft or in a minimum of 10 gallons per acre with ground equipment. To improve control by aircraft, use 5 gallons of finished spray per acre particularly when initial populations are heavier than normal. When applying by air, 1.2 quarts of emulsified oil may be substituted for 1.2 quarts of water in the finished spray. Thorough coverage is essential to achieve control. |

Dealers Should Sell in Original Packages Only.

Terms of Sale or Use: On purchase of this product buyer and user agree to the following conditions:

Warranty: FMC makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Except as so warranted, the product is sold as is. Buyer and user assume all risk of use and/or handling and/or storage of this material when such use and/or handling and/or storage is contrary to label instructions.

Directions and Recommendations: Follow directions carefully. Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller and are assumed by the buyer at his own risk.

Use of Product: FMC's recommendations for the use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice.

Damages: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages.
