FirstLine GT Plus Termite  
Bait Station

Name and Address of Registrant (include ZIP Code):

FMC Corporation Ag Products Group  
1735 Market St.  
Philadelphia, PA 19103

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A), provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of you product under FIFRA section 4.
2. Make the following label change: Revise the EPA Registration Number to read, "EPA Reg. No. 279-3196".
3. You are required to meet the same conditions of registration as those specified for EPA Registration Number 279-3153. FMC will submit production information (pounds produced) for this product for the fiscal year in which the product is conditionally registered in accordance with FIFRA Section 29. The fiscal year begins October 1 and ends September 30. This information is to be submitted to:

## Termite Bait Station

Only for Sale to, Use and Storage by Professional Pest Control Operators in Commercial, Industrial, Institutional and Residential Areas.

EPA Reg. No. 279-GRBA	EPA Est. No.
Active Ingredient:	By Wt.
Sulfuramid .....	0.01%
Inert Ingredients .....	99.99%
Total	100.00%
U.S. Patent No. 4,921,696 Other U.S. and Foreign Patents Pending	

**DO NOT ALLOW CHILDREN OR PETS TO PLAY WITH THE BAIT STATION**

### CAUTION

See other panels for additional precautionary information.

#### STATEMENT OF PRACTICAL TREATMENT

If on skin: Wash with plenty of soap and water. Get medical attention.  
For Emergency Assistance Call: (800) 331-3148.

#### PRECAUTIONARY STATEMENTS

**Hazards to Humans (and Domestic Animals)**  
Caution: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

ACCEPTED  
with COMMENTS  
in EPA Letter Dated

MAR 8 1998

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

279-3196

FMC Corporation  
Agricultural Products Group  
Philadelphia, PA 19103

11/97 Draft 2

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal  
**Pesticide Storage**

Keep out of reach of children and animals. Store in original containers only. Store in a cool dry place and avoid excess heat.

In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confine spills. Call FMC: (800) 331-3148.

To confine spill: Cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

#### Pesticide Disposal

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

#### Container Disposal

Wrap FirstLine™ GT PLUS Termite Bait Station and put in trash. Plastic bags: Dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FirstLine GT PLUS Termite Bait Station is ready to use and filled with a treated cellulosic matrix containing 100 ppm sulfuramid, a slow acting insecticide. The use of this bait suppresses or controls termite infestations. The termite activity depends on the species involved, weather, moisture, and the time of year. Termites may require 1 to 4 months or more for control. Permitted areas of use include commercial, industrial, institutional and residential buildings and structures such as, houses, apartment buildings, laboratories, stores, warehouses, schools, nursing homes, hospitals, restaurants, hotels, churches, food manufacturing, processing and service establishments and their immediate surroundings. The bait is effective against *Coptotermes*, *Heterotermes*, and *Reticulitermes* termites. Indoor applications are limited to soil installation only.

#### For Structures With an Active Infestation

For use around residential structures, do not apply more than one FirstLine™ GT PLUS Termite Bait Station.

For use around commercial, industrial and institutional structures (except daycare or pre-school structures) use as many FirstLine GT PLUS Termite Bait Stations as needed.

Use one FirstLine GT PLUS Termite Bait Station in an area of heavy termite activity. Bury the FirstLine GT PLUS termite Bait Station up to its cap in soil, wood, or mulch or completely bury the FirstLine™ GT PLUS Termite Bait Station to help prevent tampering.

FirstLine GT PLUS Termite Bait Station must be placed in close proximity to actively foraging termites so that the bait may be located by the termites and ingested. Time required for control varies depending upon how quickly the termites tube into or enter the FirstLine GT PLUS Termite Bait Station and feed upon the bait.

Minimize disturbance of termites during all phases of the FirstLine GT PLUS Termite Bait Station installation and inspection. Replace the FirstLine GT PLUS Termite Bait Station before termites consume all of the bait within a station.

The PCO must inspect the FirstLine™ GT PLUS Termite Bait Station every 2 to 4 weeks until the bait is consumed and/or termite activity ceases, replacing station with significant feeding (at least 50% of bait consumed). The frequency of inspection should be adjusted according to termite species, foraging pressure and climatic conditions. After

feeding has stopped, continue to monitor the station every two to four months for the next twelve months and then annually.

**For Structures With No Active Infestations**

For use around residential structures, do not apply more than one FirstLine GT PLUS Termite Bait Station.

For use around commercial, industrial and institutional structures (except daycare or pre-school structures) use as many FirstLine GT PLUS Termite Bait Stations as needed.

As identified by an inspection, install one FirstLine GT PLUS Termite Bait Station in a critical area. Although FirstLine GT PLUS Termite Bait Station does not attract termites, termite activity may be located through the use of FirstLine GT PLUS Termite Bait Station. FirstLine GT PLUS Termite Bait Station may be introduced into previously known infested areas. Do not place FirstLine GT PLUS Termite Bait Station closer than 6 inches to the foundation to avoid termiticide treated soil. Re-inspect the structure within 6 months and annually thereafter. If infestation occurs, the PCO must inspect the FirstLine GT PLUS Termite Bait Station every 2 to 4 weeks until the bait is consumed and/or termite activity ceases, replacing station with significant feeding (at least 50% of bait consumed). The frequency of inspection should be adjusted according to termite species, foraging pressure and climatic conditions. After feeding has stopped, continue to monitor the station every two to four months for the next twelve months and then annually.

FirstLine GT PLUS Termite Bait Station is intended to be used in an Integrated Pest Management (IPM) Program. An IPM program must start with inspection and contain any one or more of the following elements: moisture management recommendations, wood management recommendations, termiticides, termiticide foams, baits, and physical barrier sand. The PCO should follow all applicable state IPM recommendations in addition to FMC's requirements. FMC or its representative will train and authorize all PCO's in the proper use of FirstLine GT PLUS Termite Bait Station. Only PCO's authorized by FMC may apply this bait product.

The cornerstone of the IPM programs starts with a thorough inspection of the structure, elimination of conditions conducive to termite attack, moisture and food control. The structure must be thoroughly inspected and graphed prior to the start of the program. The graph must identify the location of critical areas known to be favored by termites such as but not limited to locations in the foundation penetrated by utility services, cracks and expansion joints, bath traps and areas where concrete has been poured adjacent to other concrete such as stairs, patios, slab additions, and areas with moisture problems. In addition, outside critical areas near the structure such as downspouts, water faucets, sunken window wells, poorly drained or constantly moist areas, fence posts, stumps, mulched areas and air conditioner water drains within a twenty five foot radius of the structure should be mapped. FirstLine GT PLUS Termite Bait Station may be used in situations such as: in trees, posts, poles, rubble foundations, sewer systems, electrical systems, underground cabling, porches, crawlspaces, soil, and exterior planters. Termites infesting areas adjacent to wells may be treated, whether the well is within the structure or not, but FirstLine GT PLUS Termite Bait Station must not be placed inside of a well.

**Attention**

- Do not install FirstLine GT PLUS Termite Bait Station within wells.
- Do not install FirstLine GT PLUS Termite Bait Station into termiticide treated soil.
- Do not spray FirstLine GT PLUS Termite Bait Station during routine pesticide applications.
- Do not reuse FirstLine GT PLUS Termite Bait Station at other properties.
- Do not use on fruit and nut bearing trees.
- Do not install FirstLine GT PLUS Termite Bait Station in contact with water.

Contact APG Specialty Products at: (800) 321-1362 for assistance in using FirstLine GT PLUS Termite Bait Station or other components of the Integrated Pest Management (IPM) Program.

**Termite Warranty**

The FMC authorized Pest Control operator/firm utilizing the FirstLine GT PLUS Termite Bait Station as part of an Integrated Pest Management program for structures must, so long as the property owner is maintaining the annual renewal inspection, provide the property owner with a warranty that structural damage caused by live termites after the initiation of the IPM program will be repaired. Any such warranty shall be between the PCO operator/firm and the property owner. This paragraph neither creates nor confers any rights against FMC.

**Distributors Should Sell in Original Packages Only.**

**Terms of Sale or Use:** On the purchase of this product buyer and the user agrees to the following conditions:

**Warranty:** FMC makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Except as so warranted, the product is sold as is. Buyer and user assume all risk of use and/or handling and/or storage of this material when such use and/or handling and/or storage is contrary to label instructions.

**Directions and Recommendations:** Follow directions carefully. Timing, method of application, weather conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller and are assumed by the buyer at his own risk.

**Use of Product:** FMC's recommendations for the use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice.

**Damages:** Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages.
