NOTIFICATION

JAN 29 2002

CERTIFICATION STATEMENT

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the Confidential Statement of Formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

For Best Results (Optional)

How and when to apply

Directions for use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For extended fire ant control and prevention, apply Talstar Fire Ant-X™ two times per year:

Spring: March-May

Late Summer: August-September

Amount to Use: Broadcast Application (Optional)

Apply uniformly over your lawn using the suggested spreader settings. Water lawn after application to wash granules from the lawn foliage.

For best results, apply during the morning or late evening when it is cool and the ants are most active.

Don't treat just the infested areas of the lawn where mounds are visible. Treat the entire lawn area to prevent reinfestation of fire ants from neighboring areas.

Amount to Use: Mound Application (Optional)

Control will be optimized by combining broadcast applications that will control foraging workers and newly mated fly-in queens with mound treatments that will kill existing colonies. If the soil is not moist, then it is important to irrigate before application. Mounds should be treated by applying 1/2 cup of Talstar Fire Ant-X Fire - Ant Killer per mound and then drenching the mound with 1 to 2 gallons of water. The mounds should be treated with sufficient force to break their apex and allow the insecticide solution to flow into the ant tunnels. A four foot diameter circle around the mound should also be treated. For best results, apply in cool weather (65 - 80°F) or in early morning or late evening hours. This treatment will

kill the queen within 24 hours of application. Food utensils such as teaspoons and measuring cups must not be used for food purposes after use with pesticides.

In New York State, this product may NOT be applied to any grass or turf area within 100 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch).

In New York State, do make a single repeat application of Talstar Fire Ant-X Fire Ant Killer if there are signs of renewed insect activity, but not sooner than two weeks after the first application.

STORAGE AND DISPOSAL [Trash Can Art]

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Keep out of reach of children and animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use close tightly.

PESTICIDE CONTAINER DISPOSAL: Do not reuse empty bags. Wrap bags and put in trash.

[BACK]

Spreading Tips

For best results, use a Scotts® Spreader (optional)

| Spreader | Spreader Settings | | Directions |
|---|-------------------|--|--|
| | covers | | |
| | 5,000 sq. ft. | | |
| | X,XXX sq. ft. | | |
| Scotts® AccuGreen Drop Spreaders | X | | Mow lawn first if grass is tall enough to touch the bottom of the spreader. First apply two header strips. Operate spreader the longest way of the lawn. Overlap wheel marks to ensure uniform coverage. Shut off spreader when you have reached the header strips or stopped. |

| | | |
|---|----|---|
| Scotts® EasyGreen® Rotary Spreader | XX | Slide shut-off lever to the right; application automatically starts and stops when you do. For complete coverage make each pass about 30 inches from the previous one so some overlapping occurs. |
| Scotts® SpeedyGreen® Rotary Spreader | X | Shut off spreader anytime you stop. For complete coverage make each pass about five feet from the previous one, so some overlapping occurs. Avoid applying this product on vegetables. |

Additional Spreader Settings

- EZ Drop, Republic (#530) X
- EZ Broadcast, Republic (#540) X
- Scotts® Handy Green® II..... X
- Scotts® Easy™ Hand Held Spreader..... X
- Ortho® Whirlybird® Multipurpose Spreader... X

Spreader settings are approximate. You may need to adjust for proper coverage.)
