OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

August 2, 2016

Evan Parenti Product Registration Manager FMC Corporation 1735 Market Street Philadelphia, PA 19103

Subject: Label Amendment – Addition of Home & Garden section, claims, label rework Product Name: F6578 EW INSECTICIDE EPA Registration Number: 279-3349 Application Date: 8-Feb-2016 Decision Number: 513766

Dear Mr. Parenti:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Page 2 of 2 EPA Reg. No. 279-3349 Decision No. 513766

with FIFRA section 6. If you have any questions, you may contact Julie Breeden-Alemi at 703-347-0511 or via email at <u>Breeden-Alemi.Julie@epa.gov</u>.

Sincerely,

Kable Bo Davis, Product Manager 3 Invertebrate and Vertebrate Branch 1 Registration Division (7505P) Office of Pesticide Programs

FMC Corporation 1735 Market Street Agricultural Products Group Philadelphia PA 19103 ACCEPTED

08/02/2016 Under the Federal Insecticide, Fungicide and Rodenticide Act as amended, for the

279-3349

pesticide registered under

EPA Reg. No.

#### PRECAUTIONARY STATEMENTS

#### **ENVIRONMENTAL HAZARDS**

This pesticide is extremely toxic to fish, aquatic invertebrates, oysters and shrimp. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. Care should be used when spraying to avoid fish and reptile pets in/around ornamental ponds. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are foraging the treatment area.

### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. [(SHAKE WELL BEFORE USING)]

[Open for Precautionary Statements, First Aid and Complete Directions for Use]

#### USE RESTRICTIONS

Do not treat pets with this product.

Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.

Do not allow adults, children, or pets to enter the treated area until sprays have dried.

Remove pets, birds, and cover fish aquariums before spraying.

Avoid contamination of food and feedstuffs. Remove or cover exposed food and drinking water before application.

Do not use in food handling establishments in which food is held, processed, prepared, and/or served. When used in the home, remove or cover dishes, utensils, food processing equipment, and food preparation surfaces or wash them before use.

Do not apply directly to animals.

Do not use in aircraft.

#### [FOR OUTDOOR USES]

All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

(1) Treatment to soil or vegetation around structures;

(2) Applications to lawns, turf, and other vegetation;

(3) Applications to building foundations, up to a maximum height of 3 feet.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.

Do not water the treated area to the point of run-off.

Do not make applications during rain.

Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow this product to enter any drain during or after application.

[If you have a medical emergency, need consultation on diagnosis, therapy and analysis please call (800) 420-9347]

[If you have questions relating to product use or application, please call (866) 945-5033] [If you have a product spill or transportation emergency call (800) 424-9300] [For Consumer Refund: TechPac, LLC PO Box 95437 Palatine, IL 60095-0437]

IMPORTANT – Directions for Storage and Disposal		
Storage	Keep from freezing. Keep out of reach of children and animals. Store in original containers only. Store in a cool, dry place, preferably in a locked storage area and avoid excess heat. After partial use, replace lids and close tightly. Do not put concentrate or dilute material into drink containers.	
Pesticide Disposal and Container Handling	Nonrefillable container. Do not reuse or refill this container. <b>If empty:</b> place in trash or offer for recycling, if available. <b>If partly filled:</b> Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.	

#### Dealers Must Sell in Original Packages Only. Conditions of Sale and Limitation of Warranty and Liability:

**NOTICE:** Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions beyond the control or FMC or Seller. To the extent consistent with applicable law, all such risks shall be assumed by Buyer and User, and Buyer and User agree to hold FMC and Seller harmless for any claims relating to such factors.

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the Directions for Use when used in accordance with the directions under normal conditions of use. EXCEPT AS WARRANTED BY THIS LABEL, FMC MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, NOR ANY OTHER EXPRESS OR IMPLIED WARRANTIES WITH RESPECT

TO THE SELECTION, PURCHASE, OR USE OF THIS PRODUCT. Any warranties, express or implied, having been made are inapplicable if this product has been used contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to (or beyond the control of) seller or FMC, and buyer assumes the risk of any such use.

To the extent consistent with applicable law FMC or seller shall not be liable for any incidental, consequential or special damages resulting from the use or handling of this product. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF FMC AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF FMC OR SELLER, THE REPLACEMENT OF THE PRODUCT.

This Conditions of Sale and Limitation of Warranty and Liability may not be amended by any oral or written agreement.

#### Comfort Grip<sup>™</sup> Sprayer

[When Packaged Accordingly:] Prepare Comfort Grip<sup>™</sup> Battery Operated [Powered] Sprayer

- 1. Remove sprayer from holster and remove battery tab
- 2. Remove red plug and pull cord out all the way
- 3. Remove tab from flip top of cap
- 4. Open and insert red plug into cap opening
- 5. Turn sprayer nozzle to desired spray pattern and follow directions for use.

{To replace batteries:

- 1. Push release button on sprayer and open battery compartment door.
- 2. Promptly remove used batteries and replace with two new AA batteries
- 3. Insert new batteries following the "+" and "-" markings according to the polarity directions shown inside.
- 4. Do not recharge, heat or dispose of batteries in fire.
- 5. Keep batteries out of reach of children.

Always follow manufacturer's recommendations for use and disposal of batteries. Remove batteries from sprayer before storing or when not using for extended periods of time.}

### **Conventional Pump Trigger Sprayer:**

General Information: [Turn sprayer nozzle to "on" position [desired spray pattern].] Squeeze trigger to spray until surface is slightly moist but not to the point of runoff. Over application may cause damage. Test in an inconspicuous area before applying.

[APPLICATION INSTRUCTIONS]	<ul> <li>{Note: this section is optional based on instructions included in "HOW TO APPLY" above}</li> <li>Shake well before use</li> <li>Apply where insects are expected to appear or when insects or damage are seen. Repeat as necessary according to site-specific directions listed below.</li> <li>Apply in calm weather.</li> <li>Begin spraying at the farthest point of the treatment area and work backward to avoid contact with wet treated surfaces.</li> <li>Spray thoroughly to wet plant surfaces up to the point of runoff.</li> <li>Sprays must be dry in treated areas before people or pets re-enter.</li> <li>Do not apply to trees taller than 10 feet. Consider hiring a licensed professional.</li> </ul> For best results: <ul> <li>Hold sprayer 8 to 12 inches from the area to be treated.</li> <li>Begin spraying at farthest point in target area and work backwards to avoid contact with spray.</li> <li>Spray target area thoroughly and up to the point of runoff. On leafier plants, be sure to wet both upper and lower leaf surfaces, stems, and branches.</li> </ul> Precautions: <ul> <li>[Avoid applications in excessive heat as temporary leaf burn may occur.]</li> <li>Do not use on trees taller than 10 feet - consider hiring a licensed professional.</li> </ul>

#### GARDEN VEGETABLES

In the table below, the Pre-Harvest Interval (PHI) refers to the minimum number of days that must pass between the date of the last application and the date of harvest. Reapply if insects return, but not more than once every seven days and according to PHI [pre-harvest interval].

Vegetables {Icons may be used for any of the below}	PHI (Days)
[Brassica vegetables:] [Broccoli, Chinese Broccoli (gai lon, white flowering broccoli), Brussels Sprouts, Cauliflower, Cavalo broccolo, Kohlrabi, Cabbage, Chinese Cabbage (napa), Chinese Mustard Cabbage (gai choy), Broccoli Raab (rapini), Chinese cabbage (bok choy), Collards, Kale, Mizuna, Mustard Greens, Mustard Spinach, Rape Greens, Turnip Greens]	1 Day
Corn (sweet)	3 Days
[Cucurbit vegetables:] [Chayote (fruit), Chinese Waxgourd (Chinese Preserving Melon), Citron Melon, Cucumber, Gherkin, Gourd (edible (including hyotan, cucuzza, hechima, Chinese orkra), Mormordica spp. (includes balsam apple, balsam pear, bitter melon, Chinese cucumber), Muskmelon (includes true cantaloupe, cantaloupe, casaba, crenshaw melon, golden pershaw melon, honeydew melon, honey balls, mango melon, Persian melon, pineapple melon, Santa Claus melon, and snake melon), Pumpkin, Summer Squash (includes crookneck squash, scallop squash, straightneck squash, vegetable marrow, zucchini), Winter Squash (includes butternut squash, calabaza, hubbard squash, acorn squash, and spaghetti squash), Watermelon (includes hybrids and varieties)]	1 Day
[Legume Vegetables - Succulent Edible-Podded Peas, Succulent Shelled Peas and Dried Shelled Peas:] [Dwarf Pea, Edible-pod Pea, Snow Pea, Sugar Snap Pea, Pigeon pea, English Pea, Garden Pea, Green Pea, Lentil]	1 Day (Succulent) 21 Days (Dried)
[Legume Vegetables - Succulent Edible-Podded Beans, Succulent Shelled Beans, and Dried Shelled Beans:] [Runner Bean, Snap Bean, Wax Bean, Asparagus Bean, Chinese Longbean, Moth Bean, Yardlong Bean, Jackbean, Soybean (immature seed), Swordbean, Lima Bean, Broad Bean (Fava Bean), Blackeyed Pea, Southern Pea, Grain Lupin, Sweet Lupin, White Lupin, White Sweet Lupin, Field Bean, Kidney Bean, Navy Bean, Pinto Bean, Tepary Bean, Adzuki Bean, Catjang, Cowpea, Crowder Pea, Moth Bean, Mung Bean, Rice Bean, Urd Bean, Chickpea (Garbanzo Bean), Guar, Lablab bean]	
<b>[Fruiting vegetables:]</b> [ Eggplant, groundcherry (Physalis spp.), okra, pepino (Melon pear), pepper (includes bell pepper, chili pepper, cooking pepper, pimento, sweet pepper), tomatillo, tomato]	1 Day
[Leafy vegetables:] [Amaranth (leafy amaranth, Chinese spinach, tampala); Arugula (Roquette), Cardoon, Celery, Chinese Celery, Celtuce, Chervil, Chrysanthemum (edible- leaved and garland), Cilantro (not for use on cilantro grown for seed or coriander), Corn salad, Cress (Garden, Upland (yellow rocket, winter cress)), Dandelion, Dock (sorrel), Endive (escarole), Fennel/Florence (finochio), Garden Cress, Lettuce (head and leaf), Orach, Parsley, Purslane (garden), Purslane (winter), Radicchio (red chicory), Rhubarb, Spinach (including New Zealand and vine, Malabar spinach, Indian spinach), Swiss chard]	1 Day

Peanuts	7 Days
<b>[Root and Tuber vegetables (except sugar beets):]</b> [Arracacha, Arrowroot, Artichoke (Chinese and Jerusalem), Garden Beet, Edible Burdock, Edible Canna, Carrot, Cassava (Bitter and Sweet), Celeriac (Celery Root), Chayote (Root), Turnip-Rooted Chervil, Chicory, Chufa, Dasheen (Taro), Ginger, Ginseng, Horseradish, Leren, Turnip-Rooted Parsley, Parsnip, Potato, Oriental Radish (Daikon), Radish, Rutabaga, Salsify (Oyster Plant), Black Salsify, Spanish Salsify, Skirret, Sweet Potato, Tanier (Cocoyam), Turmeric, Turnip, Yam Bean, Yam (True)]	1 Day
<b>[Sunflowers:]</b> [Castor Oil Plant, Chinese Tallowtree, Euphorbia, Evening Primrose, Jojoba, Niger Seed, Rose Hip, Stokes Aster, Tallowwood, Tea Oil Plant, and Vernonia]	30 Days

#### **BERRIES, FRUITS, AND NUTS**

Use F6578 EW RTU as a spot treatment for pest infestations on the berries, fruits and nuts listed below. Apply to upper and lower leaves, around fruit clusters, and on branches and trunks up to the point of runoff. Reapply if insects return, but not more than once every seven days and according to PHI [pre-harvest interval].

BERRIES, FRUITS, AND NUTS {Icons may be used for any of the below}	PHI (Days)
[Berries Crop Group including:] [Blackberry, loganberry, red and black raspberry, blueberry, highbush and lowbush, currant, elderberry, gooseberry, huckleberry, cultivars and/or hybrids of these]	1 Day
Grapes	1 Day
<b>[Pome Fruit Group including:]</b> [Apple, Crabapple, Loquat, Mayhaw, Pear, Oriental Pear, and Quince.]	14 Days
[Stone Fruit Group including:] [Apricot, Cherry (Sweet and Tart), Nectarine, Peach, Plum (including Chickasaw Plum, Damson Plum, and Japanese Plum), Plumcot, Prune (fresh).]	14 Days
<b>[Tree Nuts Group including:]</b> [Almond, beech nut, Brazil nut, butternut, cashew, chestnut, chinquapin, filbert (hazelnut), hickory nut, macadamia nut, pecan, pistachio, walnut (black and English)]	7 Days
<b>[Tropical Fruits including:]</b> [Avocado, Black Sapote, Canistel, Mamey Sapote, Mango, Papaya, Sapodilla, Star Apple]	1 Day

#### **ORNAMENTAL TREES, SHRUBS, FLOWERS, AND GROUND COVERS**

Use F6578 EW RTU as a spot treatment for pest infestations on ornamental trees, shrubs, flowers and ground covers. Spray up to the point of run-off making sure to cover all sides of leaves and trunk. For ground covers, bedding plants, foliage, annuals and perennials, apply as a uniform spray. Reapply if pests return but repeat applications should be limited to no more than once per seven days.

Certain plants may be sensitive to the final spray solution. A limited area should be treated and observed for one week prior to application to the entire planting.

#### **OUTDOOR PERIMETER TREATMENTS**

Apply to the point of run-off as a residual spray to vegetation such as bushes and trees around buildings and other structures. For ants, apply to any trails, around doors and windows and other places where ants may be found. [To prevent pests from entering buildings, apply to a band of soil and vegetation 5 to 10 feet wide around and adjacent to the building.] [Also treat the building foundation to a height of 2 to 3 feet where pests are active and may find entrance.] The surface to be treated should be dry at the time of application.

#### LAWNS

Apply F6578 EW RTU as a spot treatment [to] [lawns] [and] [turfgrass]. For best results, apply after mowing (lawn should not be longer than 3 inches at the time of application). Repeat application is necessary only if there are signs of renewed insect activity.

#### INDOORS

Use to kill and control listed pests commonly found indoors or that may enter from outdoor areas. Apply F6578 EW RTU as a spot treatment [to control listed insects] [to insects directly or spray] [lightly around doors, windows and other places where insects may be found or enter premises]. Spray pests directly or apply to localized areas where insects hide, such as baseboards, cracks and crevices, pantry areas, closets, around water pipes, behind and under refrigerators, cabinets, sinks, furnaces, and stoves, the underside of shelves, drawers, carports, garages, and storage sheds. Use only in well ventilated areas and do not use as a space spray.

{Note the following section is optional. Table format may be used in lieu of bulleted list:}

- For ants: apply to any trails, around doors and windows and other places where ants may be found. This product will provide up to 9 months residual control (of ants).
- For listed flying insects: Apply directly to localized areas of walls, ceilings, window screens, and other fly resting areas as a residual surface treatment.
- To Kill Cockroaches, Crickets, Firebrats, Silverfish, Springtails Indoors: Spray localized areas where these pests hide, such as baseboards, corners, storage areas, closets, around water pipes, doors and windows, attics and eaves, behind and under refrigerators, cabinets, sinks, furnaces, and stoves, the underside of shelves, drawers and similar areas. Pay particular attention to cracks and crevices.
- To Kill Boxelder Bugs, Earwigs, Elm Leaf Beetles, Ground Beetles, Millipedes, Pillbugs and Sowbugs Indoors: Spray localized areas where these pests hide, such as baseboards, corners, storage areas, closets, around water pipes, doors and windows, attics and eaves, behind and under refrigerators, cabinets, sinks, furnaces, and stoves, the underside of shelves, drawers and similar areas. Pay particular attention to cracks and crevices.
- To Kill Flies Indoors: Apply around doors and windows and other places where these pests may be found or where they may enter premises. Spray localized areas of baseboards, storage areas and other locations.
- To Kill Blacklegged ticks that may transmit Lyme disease and Brown dog ticks Indoors: Spot treat localized areas of floors pets may frequent such as pet resting areas. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area.
- Treatment of Wood-in-Place to Kill Exposed Stages of Wood-Infesting Insects: For the control of insects such as Termites, Ants and Carpenter Ants in localized areas of infested wood in and around structures, apply to voids and galleries in damaged wood and in spaces between wooden members of a structure and between wood and foundations where wood is vulnerable. Not intended to replace structural treatments.
- To Kill Insects in Greenhouse and Indoor Plants: Spray leaves of infested indoor plants. Some plants may be sensitive to the spray, so first test a small area.

## **III. Multi-Use Section**

## Option 1

### Summary Back Panel

field ants, ghost ants, false honey a pyramid ants, thief ants, and velvety Common Crawling Pests: [beetles], [silverfish], [sowbugs], [spiders] {Flying Insects} as listed: [flies], [bea {Wood Damaging Insects: carpente	<ul> <li>Ants: acrobat ants, argentine ants, bigheaded ants, carpenter ants, cornfield ants, crazy ants, field ants, ghost ants, false honey ants, little black ants, odorous house ants, pavement ants, pyramid ants, thief ants, and velvety tree ants</li> <li>Common Crawling Pests: [beetles], [cockroaches], [crickets], [firebrats], [flies], [pantry pests], [silverfish], [sowbugs], [spiders]</li> <li>{Flying Insects} as listed: [flies], [bees], [wasps], [and yellow jackets]}</li> <li>{Wood Damaging Insects: carpenter Ant, carpenter Bees and termites. (Kills exposed insects. Not intended to replace structural treatments) }</li> </ul>		
<ul> <li>Before Use:</li> <li>Cover all exposed food and cooking utensils</li> <li>Cover all food handling surfaces or wash thoroughly after treatment.</li> <li>[Connect sprayer if required, turn sprayer nozzle to desired spray pattern and follow directions for how to use below.]</li> <li>How to Use – Outdoors</li> </ul>			
As a Perimeter Treatment NOTE: The application of this product to vinyl and aluminum siding (particularly lightly colored, aged, weathered or otherwise damaged) may result in staining, bleaching or discoloration. Factors such as extreme heat and direct sunlight can promote damage. Before applying this product to vinyl or aluminum siding, treat a small area and evaluate 30 minutes later to allow any potential staining to occur. Regardless of the test results, do not apply to vinyl or aluminum siding while exposed to direct sunlight or during the heat of the day. {Carpenter Ants}	<ul> <li>Apply early in the season or when insects appear.</li> <li>Apply in a band {5 to 10 ft.} wide around the outside perimeter of the building. Also treat the building foundation to a height of 2 to 3 feet where pests are active and may find entrance. Thoroughly and uniformly wet the band area.</li> <li>Concentrate treatment at visible ant trails as well as cracks or crevices where ants may enter the structure</li> <li>The surface to be treated should be dry at the time of application</li> <li>{Apply as a perimeter treatment as described above}</li> <li>{For best results locate and treat ant nests.}</li> </ul>		
{Flying Insects} as listed	<ul> <li>{Apply to nests should be made late in the evening when insects are at rest.}</li> </ul>		

How to Use – Indoors		
Use to kill and control listed pests commonly found indoors or that may enter from outdoor areas.	Use as a spot treatment – Spray insects directly or spray lightly around doors, windows and other places where insects may be found or enter premises.	
	• Spray localized areas where insects hide, such as baseboards, cracks and crevices, pantry areas, closets, around water pipes, behind and under refrigerators, cabinets, sinks, furnaces, and stoves, the underside of shelves, drawers, carports, garages, and storage sheds.	
Ants	• Apply to any trails, around doors and windows and other places where ants may be found.	
{Flying insects} as listed	<ul> <li>{Apply directly to localized areas of walls, ceilings, window screens, and other fly resting areas as a residual surface treatment. }</li> </ul>	
{Wood Damaging Insects} Kills exposed Stages	• {For the control of insects such as Termites, Ants and Carpenter Ants in localized areas of infested wood in and around structures, apply to voids and galleries in damaged wood and in spaces between wooden members of a structure and between wood and foundations where wood is vulnerable. Not intended to replace structural treatments }	
	• For Termites - For Localized control only. Not recommended as sole protection against termites. Such applications are not a substitute for mechanical alterations, soil or foundation treatment but merely as a supplement. For active infestation, get a professional inspection.}	

(end of Option 1)

## Summary Table

Where to Use	Trees and shrubs
	Roses and flowers
	Outside surfaces of buildings
	Indoors
Killo	
Kills	Ants (including fire ants, crazy ants & tawny crazy ants) Gypsy moth, bagworm, budworm & leafroller, armyworms, cutworms, fall
	webworm, sod webworm, tent caterpillar, leafminer
	Blacklegged and Brown dog ticks
	Fleas
	Millipedes
	Mosquitoes
	Spiders
	Scorpions
	Springtails
	Silverfish, firebrats
	Grasshoppers, crickets, mole cricket
	Earwigs
	Cockroaches
	Chinch bug, boxelder bug, plant bug, lace bug
	Leafhoppers, spittlebugs, psyllids, whitefly, aphids, cicadas, scales, mealybug,
	adelgids, treehoppers
	Thrips
	Weevils & billbugs, ground beetles, (Japanese beetle, pillbug, sowbug, black
	turf Ataenius, bark beetle & pine shoot beetle), borers, elm leaf beetle
	Wasps & yellow jackets, bees, carpenter bees
	Flies (Including House flies)
	This product controls acrobat ants, Argentine ants, bigheaded ants, carpenter
	ants, cornfield ants, crazy ants, field ants, ghost ants, false honey ants, little
	black ants, odorous house ants, pavement ants, pyramid ants, thief ants, and
	velvety tree ants
When to Use	To Treat ornamental shrubs, trees and flowers: When insects or damage first
	appear
	When using as-perimeter treatment: Early in season or when insects appear
	For Spot Insect Control, including Indoor Uses: Anytime Insects are active
	To control insects on vegetables and fruits: When insects or damage first
	appear
	To control insects on roses, flowers and ornamentals: When insects or damage
	first appear
How to Use	For perimeter treatments: Apply to surfaces to full wetness, creating a band.
	For Indoor spot treatment: Spray insect (pest) directly or spray until wet edges
	and crevices where insects (pests) may be.
	For Ornamental Shrubs, Trees and Flowers: fully spray foliage and stems until
	wet

[Mixing Instructions - How Much to Use]	[F6578 EW is a ready-to-use liquid that can be sprayed directly onto pests (insects) and/or on to surfaces to
	provide longer control]

How to Use – Indoors	
Use to kill and control listed pests commonly found indoors or that may enter from outdoor areas.	<ul> <li>F6578 EW may be used as a general spot, crack and crevice treatment. All areas where insects inhabit or through which insects may enter should be treated.</li> <li>Spray directly to pest and to areas where pests are found or hide.</li> <li>Use only in well ventilated areas and do not use as a space spray.</li> </ul>
To Kill Cockroaches, Crickets, Firebrats, Silverfish, Scorpions, Springtails Indoors	<ul> <li>Spray localized areas where these pests hide, such as baseboards, corners, storage areas, closets, around water pipes, doors and windows, attics and eaves, behind and under refrigerators, cabinets, sinks, furnaces, and stoves, the underside of shelves, drawers and similar areas. Pay particular attention to cracks and crevices.</li> </ul>
To Kill Ants Indoors	<ul> <li>Apply to any trails, around doors and windows and other places where ants may be found. This product will provide up to 9 months residual control (of ants).</li> </ul>
To Kill Boxelder Bugs, Earwigs, Elm Leaf Beetles, Ground Beetles, Millipedes, Pillbugs, Sowbugs and Spiders Indoors	<ul> <li>Apply around doors and windows and other places where these pests may be found or where they may enter premises.</li> <li>Spray localized areas of baseboards, storage areas and other locations.</li> </ul>
To Kill Flies Indoors	<ul> <li>Apply directly to localized areas of walls, ceilings, window screens, and other fly resting areas as a residual surface treatment.</li> <li>May also be used inside as well as around carports, garages, and storage sheds.</li> </ul>
To Kill Blacklegged ticks that may transmit Lyme disease and Brown dog ticks Indoors	<ul> <li>Spot treat localized areas of floors pets may frequent such as pet resting areas. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area.</li> </ul>

Treatment of Wood-in-Place to Kill Exposed Stages of Wood-Infesting Insects	• For the control of insects such as Termites, Ants and Carpenter Ants in localized areas of infested wood in and around structures, apply to voids and galleries in damaged wood and in spaces between wooden members of a structure and between wood and foundations where wood is vulnerable. Not intended to replace structural treatments.
	Spray leaves of infested indoor plants.
To Kill Insects in Greenhouse and Indoor Plants	• Some plants may be sensitive to the spray solution, so first test a small area.

How to Use – Outdoors	
NUISANCE PESTS ON OUTDOOR SURFACES	
To Kill Ants, Fleas, Mosquitoes, Earwigs, Crickets, Spiders and other listed Pests on Outside Surfaces and Around Buildings Around structures: acrobat ants, Argentine ants, bigheaded ants, carpenter ants, cornfield ants, crazy ants, field ants, ghost ants, false honey ants, little black ants, odorous house ants, pavement ants, pyramid ants, thief ants, velvety tree ants NOTE: The application of this product to vinyl and aluminum siding (particularly lightly colored, aged, weathered or otherwise damaged) may result in staining, bleaching or discoloration. Factors such as extreme heat and direct sunlight can promote damage. Before applying this product to vinyl or aluminum siding, treat a small area and evaluate 30 minutes later to allow any potential staining to occur. Regardless of the test results, do not apply to vinyl or aluminum siding while exposed to direct sunlight or during the heat of the day.	<ul> <li>Apply to wetness by spray to vegetation such as bushes and trees around buildings and other structures.</li> <li>For ants, apply to any trails, around doors and windows and other places where ants may be found.</li> <li>To prevent pests from entering buildings, apply to a band of surfaces, soil and vegetation [1] [2] [3] 5 to 10 feet wide around and adjacent to the building. Also, treat the building foundation to a height of [1] 2 to 3 feet where pests are active and may find entrance.</li> <li>The surface to be treated should be dry at the time of application. Attics and unoccupied lofts should be treated at the same time and at the same rate.</li> <li>Apply in a band [1] [2] [3] 5 to 10 ft. wide around the outside perimeter of the building. Treat areas such as flower gardens, and around trees, and dump-sites where ants are trailing, feeding or nesting. Concentrate treatment at visible ant trails as well as cracks or crevices where ants may enter the structure.</li> </ul>

To Kill Carpenter Ants Outdoors	<ul> <li>Apply to carpenter ant trails around doors and windows and other places where carpenter ants have been observed or are expected to forage.</li> <li>For best results, locate and treat carpenter ant nests.</li> <li>Apply a perimeter treatment as described above. To protect firewood from carpenter ants (and termites), apply to the soil beneath where the firewood will be stacked. DO NOT treat firewood with this product.</li> </ul>	
To Kill Mosquitoes Outdoors	<ul> <li>For best results, locate areas where mosquitoes are most active or may become active. Use a spot and crack and crevice treatment around potential entry points such as doors, windows, and eaves. Spray insects directly if possible.</li> </ul>	
To Kill Bees and Wasps Outside	<ul> <li>Application to nests should be made late in the evening when insects are at rest.</li> <li>Thoroughly spray nest and entrance and surrounding areas where insects alight</li> </ul>	
LAWNS		
To Kill Ants, Beetles, Chinch Bugs, Mole Crickets, Sod Webworms, Weevils and other Pests in Lawns	<ul> <li>Lawn should not be longer than 3 inches at the time of application. [Application in combination with compatible surfactants may enhance penetration.]</li> <li>Repeat application is necessary only if there are signs of renewed insect activity.</li> </ul>	
ORNAMENTALS, ROSES, FLOWERS and TR	EES	
To Kill Ants, (including cut ants), Aphids, Bagworms, Earwigs, Sow Bugs, Millipedes, Beetles, Weevils, Plant Bugs, Leaf-cutting Bees, Sawflies, Caterpillars, Moths and other listed pests on Ornamentals, Roses, Flowers and Trees (including deciduous and evergreen trees, shrubs, ground covers, bedding plants, annuals, perennials, and foliage plants).	<ul> <li>Apply to point of run-off. Spray up to the point of run-off making sure to cover all sides of leaves and trunk. Retreat if pests return.</li> <li>For ground covers, bedding plants, foliage, annuals and perennials, apply as a uniform spray. Repeat treatment as necessary to achieve control using higher application rates as pest pressure &amp; foliage area increases. Repeat application should be limited to no more than once per seven days.</li> <li>Certain plants may be sensitive to the final spray solution. A limited area should be treated and observed for one week prior to application to the entire planting.</li> </ul>	

## **IV. Pest List**

PESTS CONTRO	LLED
PESTS CONTROL Caterpillars, Butterflies and Moths	Tent forming caterpillars, cocoon forming caterpillars, chrysalis forming caterpillars. Leaf feeding caterpillars (including leaves of flowering plants, bushes and other ornamentals, vegetables and trees), azalea leafminers, green cloverworm, fruit eating caterpillars, legume feeding caterpillars, vegetable feeding caterpillars, stem and trunk boring caterpillars, and leafrolling caterpillars. Caterpillars of the Yucca Moth family such as Fairy moths and Yucca moths; Clothes moth family; bagworm moth family, Gelechiid moth family such as Potato tuber moths; Ermine Moth family such as Ailanthus Webworm moth; Clear Winged moth family such as Manroot borer, Squash Vine borer, Doll's Clearwing moth, California Sycamore borer; Tortricid Moth family (millers) such as Fruit Tree Leafroller moth, Orange Tortrix, and Codling moth; Skippers such as Least Skipper, Silver-spotted Skipper, and Long-tail Skipper; Swallowtails such as Green swallowtail, Zebra Swallowtail, Giant Swallowtail (Orange Tail, Orange Puppy), Pale Swallowtail, Eastern Tiger Swallowtail, Eastern Black Swallowtail, Spicebush Swallowtail, and Phoebus; Whites, Sulphurs and Orange Tips family such as Sara Orange Tip, Great Southern White, and European Cabbage Butterfly; Gossamer-Winged Butterflies Family such as Great Purple Hairstreak, Spring Azure, Early Hairstreak, Eastern Tailed blue, Harvester, Silvery Blue, Brown Elfin, Marine Blue, American Copper, and Gray Hairstreak; Metalmark family such as Northern Metalmark; Snout Butterflies family such as Common Snout Butterfly; Brush-Footed Butterfly family such as Gulf Fritillary, White Peacock, Harris' Checkerspot, Painted Lady (Thistle butterfly), American Painted Lady (Painted Beauty), Baltimore, Zebra (Yellow-barred Heliconian), Viceroy, White Admiral (Banded Purple), Mourning Cloak, Milbert's Tortoise Shell, Pearl Crescent, Question Mark, Buckeye, Great Spangled Fritillary, and Red Admiral; Hackberry and Goatweed Butterfly family such as Hackberry butterfly; Satyrs,
	Crescent, Question Mark, Buckeye, Great Spangled Fritillary, and Red Admiral; Hackberry and Goatweed Butterfly family such as Hackberry butterfly; Satyrs, Nymphs and Arctics family such as Wood Nymph (American Grayling), White Wood Satyr, Eyed Brown (Grass Nymph), Pearly Eye, and Chryxus Arctic; Milkweed Butterfly family such as Queen, and Monarch; Smoky Moth family such as Grape Leaf Skeletonizer; Slug Caterpillar Moth family such as Saddleback Caterpillar Moth; Pyralid Moths family such as Mediterranean Flour Moth Sod
	Webworm Moth, Indian Meal Moth, Meal Moth; Plume Moth family such as Artichoke Plume Moth; Measuringworm Moth family such as Tulip Tree Beauty, California Cankerworm Moth, and Large California Spanworm Moth; Tent Caterpillar Moth family such as Western Tent Caterpillar Moth; Giant Silkworm Moth family such as Luna Moth, Polyphemus moth, Io Moth, Promethea Moth (Spicebush Silkmoth), Regal Moth (Royal Walnut Moth), Rosy Maple Moth, Imperial Moth, Sheep Moth, Cecropia Moth, and Cynthia Moth; Sphinx moth family such as Virginia-creeper Sphinx, Pandora Sphinx, Hummingbird Moth (Common Clearwing), White-lined Sphinx, Tomato Hornworm Moth, Tobacco
	<ul> <li>Hornworm Moth, Big Poplar Sphinx, Cerisy's Sphinx, and Wild-cherry Sphinx;</li> <li>Prominents family such as Tentacled Prominenets (Puss Moths), and Red- humped Appleworm Moth; Tiger Moth family such as Ornate Tiger Moth, Yellow Woolly Bear Moth, Acraea Moth, Milkweed Tiger Moth, Spotted Tiger Moth, Colona, Woolly Bear Caterpillar Moth (Banded Woolly Bear), Lichen Moth, and Rattlebox Moth; Ctenuchid Moth family such as Virginia Ctenuchid moth; Tussok</li> </ul>

	moth family such as Gypsy Moth, White-marked Tussok Moth; Owlet Moth family such as Eight-spotted Forester, Black Witch, Alfalfa Looper, Sweetheart Underwing, Locust Underwing, and Hebrew.
Common Bristletails	Silverfish Family such as Silverfish, and Firebrat
Springtails	Podurid Springtail family such as Snow Pea, Seashore Springtail; Entomobryid Springtail family such as Ainsley's Springtail; Globular Springtail family
Cockroaches	Blattid Cockroach Family such as Oriental Cockroach (Asiatic Cockroach, Shad Cockroach), and American Cockroach (Waterbug); Blattellid Cockroaches family such as German Cockroach (Croton Bug)
Termites	Rotting-wood termite family such as Pacific Coast Termite; Subterranean termite family such as subterranean termites. Not intended to replace structural treatments. For termites – not recommended as sole protection against termites. Such applications are not a substitute for mechanical alterations, soil or foundation treatment but merely as a supplement. For active infestations, get a professional inspection.
Earwigs	Long-Horned Earwig family such as Ring-legged Earwig, and Riparian Earwig; Common Earwig family such as European Earwig
Grasshoppers & Crickets	Pygmy Grasshopper family such as Aztec Pygmy Grasshopper; Short-Horned Grasshopper family such as Creosote Bush Grasshopper, Lubber Grasshopper, Painted Grasshopper, Carolina Locust, Dragon Lubber Grasshopper (Gray Dragon), Three-banded Grasshopper (Banded Range Grasshopper), Differential Grasshopper, Red-legged Locust, Spur-throated Grasshopper, Two-stripped Grasshopper, Panther-spotted grasshopper, Southeastern Lubber Grasshopper, Alutacea Bird Grasshopper, American Bird Grasshopper, Green Valley Grasshopper, Toothpick Grasshopper, Horse Lubber Grasshopper, Pallid-winged Grasshopper, and Great Crested Grasshopper (Dinosaur Grasshopper); Long- horned grasshoppers and Katydids family such as Oblong-winged Katydid, Mormon Cricket, Short-legged Shield back Katydid, California Katydid, Angular- winged Katydid, Keeled Shield-back Katydid, Nebraska Cone-head, Gladiator Katydid, Mescalero Shield-back Katydid, True Katydid (Northern Katydid), and Fork-tailed Bush Katydid; Camel Crickets family such as Spotted Camel Cricket, Secret Cove Cricket, Jerusalem Cricket; True Crickets family such as House Cricket (Cricket on the Hearth), Field Cricket, California Tree Cricket, Snowy Tree Cricket, and Black-horned Tree Cricket; Mole Cricket family such AS Northern Mole Cricket and European Mole Cricket
True Bugs	Plant Bug family such as Adelphocoris Plant Bugs, Scarlet Plant bugs, Tarnished Plant Bugs, and Four-lined Plant Bug; Assassin bug family such as Bee Assassins, Wheel Bug; Ambush Bug family such as Jagged Ambush Bug; Lace Bug family such as Oak Lace Bug; Seed Bug family such as Small Eastern Milkweed Bug; Long-necked Seed Bug, and Large Milkweed Bug; Stilt Bug family such as Stilt Bugs; Leaf-footed Bug family such as Florida Leaf-footed Bug, and Squash Bug; Scentless Plant Bug family such as Eastern Boxelder Bug and Western Boxelder Bug; Stink Bug family such as Green Stink Bug, Brochymenas, Two-spotted Stink Bug (Conspicuous Stink Bug), Harlequin Cabbage Bug ( Calico Bug, Fire Bug), and Spined Soldier Bug
Cicadas and Kin	Cicada family such as Periodical Cicadas, Dogday Harvestfly, and Grand Western Cicada

Treehoppers	Treehopper family, such as Thorn-mimic Treehopper, Oak Treehopper, Buffalo Treehopper, and Locust Treehopper
Leafhoppers	Leafhopper family such as Grape Leafhopper, Scarlet-and-green Leafhopper, Sharpshooter
Thrips	Banded Thrips family such as Banded-wing Thrips; Common Thrips family
Beetles	Tiger Beetle Family such as Beautiful Tiger Beetle, Dainty Tiger Beetle, Six- Spotted Green Tiger Beetle, and Dejean's Flightless Tiger Beetle; Ground Beetle family such as Bombardier Beetle, Fiery Searcher (Caterpillar hunter), European Ground Beetle, Green Pubescent Ground Beetle, Common Black Ground Beetle, and Boat-backed Ground Beetle; Predacious Diving Beetle; Whirligig Beetle family such as Large Diving Beetle, and Marbled Diving Beetle; Whirligig Beetle family such as Large Whirligig Beetle, and Small Whirligig Beetle; Hister Beetle family such as Large Whirligig Beetle, and Small Whirligig Beetle; Hister Beetle family such as Hister beetles; Carrion Beetle family such as Margined Burying Beetle, Tomentose Burying Beetle (Gold-necked Carrion Beetle), American Carrion Beetle, and Northern Carrion Beetle; Stag Beetle family such as Elephant Stag Beetle, Agassiz's Flat-horned Stag Beetle, Reddish-brown Stag Beetle, and Rugose Stag Beetle; Bessbugs family such as Patent-leather Beetle (Horned Passalus); Scarab Beetle family such as Tumblebugs, Goldsmith Beetle, Green Jumping Beetle, Brown Fruit Chafer, Glossy Pillbug, Grapevine Beetle, May Beetles (June Beetles, J. Ten-lined June Beetles, and Japanese Beetle; Metallic Wood-Boring Beetles such as Golden Burpestid, Western Pine Borer (Sculptured Pine Borer), and Divergent Metallic Wood Borer (Flatheaded Cherry Tree Borer); Click Beetle family such as Eastern Eyed Click Beetle (Big-eyed Click Beetle), and Fire Beetles; Fireflies (Lightning Bugs) Family such as Pyralis Firefly, and Pennsylvania Firefly; Soldier Beetle family such as Spider Beanden Net-wing, and Golden Net-wing, Spider Beetle family such as Apple Twig Borer; Checkered Beetle, Slender Checkered Beetle, and Red-blue Checkered Beetle, Rind Rebetle family such as Red Flat Bark Beetle, Picate Beetle, Yellow Mealworm Beetle, and Ash Gray Ladybug Beetle, Picate Beetle, Yellow Mealworm Beetle, and Ash Gray Ladybug Beetle, Picate Beetle, Yellow Mealworm Beetle, and Ash Gray Ladybug Beetle, Picate Beetle,

	Pine Weevils, Rose Weevils, Agrave Billbug, and Stored-grain Billbug (Granary Weevil, Elephant Bug); Bark and Ambrosia Beetle family such as Red Turpentine Beetle, Pine and Spruce Engraver Beetles, and Bark Beetles.
Bees, Ants, Wasps, Sawflies	Cimbicid Sawflies family such as Rusty Willow Sawfly; Common Sawfly family such as Northeastern sawfly; Horntail family such as Pigeon Horntail, and Smokey Horntails; Stem Sawflies family such as Raspberry Horntail; Braconids family such as Braconid Wasps; Ichneumons family such as Giant Ichneumons, Short-tailed Ichneumons and Red-tailed Ichneumon; Torymid Wasp family such as California Torymus; Chalcid family such as Golden-yellow Chalcid; Gall Wasp family such as California Oak Gall Wasps and Live Oak Gall Wasp; Pelecinid family such as American Pelicini; Tiphiid Wasp family such as Five-banded Tiphiid Wasp; Velvet-Ants such as Thistledown Velvet-ant, Red Velvet-ant, and Cow Killer; Scoliid Wasp family such as Scarab-hunter Wasp, and Digger Wasp; Ant family such as Spine-waisted ants, Leafcutter ants, Texas Carpenter ants, Black Carpenter ants, Crater-nest ants, Crazy Ants, Tawny Crazy Ants, Texas Shed-builder ant (Acrobat Ant), Red Ant, Legionary Ant, Little Black Ant, Arid Lands Honey Ant, Big-headed Ant, Honey Ant, and Fire Ant; Vespid Wasp family such as Potter Wasp, Paper Wasps, Yellow Jackets, and Sandhills Hornet; Spider Wasps such as Thread-waisted Wasps, Eastern Sand Wasp, Steel-blue Cricket Hunter, Purplish-blue Cricket Hunter, Florida Hunting Wasp, Black and Yellow Mud Dauber, Cicada Killer, and Great Golden Digger Wasp; Bee families such as Plasterer Bee, Yellow-faced Bees, Virescent Green Metallic Bees, Augochlora Green Metallic Bees, Alkali Bee, Mining Bee, Western Leafcutting Bee, Mason Bees, California Leafcutting Bee, Digger Bees, Western Cuckoo Bee, California Carpenter Bee
Flies	Crane fly family such as Wood-boring Tupulid, Giant Western Crane Fly, and Crane Flies; Phantom Crane Flies such as Phantom Crane Fly; Net-winged Midges such as Comstock's Net-winged Midge; Phantom Midges; Black Flies such as Black flies; March Flies family such as March Flies; Fungus Gnats family such as Fungus Gnats; Snipe Fly family such as Gold-backed Snipe Fly; Stiletto Fly family such as Stiletto Flies; Flower-loving Fly family such as Flower-loving Fly; Mydas Fly family such as Mydas fly; Robber Fly family such as Bearded Robber Fly, Sacken's Bee Hunter, Giant Robber Fly, Bee Killer (Giant Robber Fly), and Robber Flies; Dance Flies such as Bee Fly, Large Bee Flies, and Progressive bee Flies; Dance Flies such As Dance Flies; Long-Legged Flies such as Condylostylid Long-legged Flies, and Texan Long-legged Fly; Hover Fly family such as Woollty Bear Hover Flies, Elongate Aphid Flies, Drone Flies, Bulb Flies, American Hover Flies, and Toxomerus Hover Fly; Thick Headed Fly family such as Thick headed fly; Pyrgotid Fly family such as Pyrgotid Flies; Fruit Fly family such as Walnut Husk Fly, and Apple Maggot Fly; Seaweed Fly family such as California Seaweed Fly; Marsh Fly family such as Marsh flies; Shore fly family such as Yellowstone Brine Fly; Pomace fly family such as Vinegar Fly; Anthomyiid Fly family such as Dung Fly; Muscid Fly family such as House Fly, and Biting Stable Fly; Louse Fly family, Blow Fly family such as Blue Bottle Fly, Screw-worm Fly, and Green Bottle Fly; Flesh Fly family such as Flesh flies; Tachinid Fly family such as Beelike Tachinid Fly, Early Tachinid Fly, Repetitive Tachinid Fly family such as Beelike Tachinid Fly

Spiders	Folding trapdoor spider family such as Turret spider; Tarantula family such as Desert Tarantula; Trapdoor Spider family such as California Trapdoor spider; Dictynid spider family such as Branch-yip spiders; Spitting spider family such as Spitting spiders; Violin Spider family such as Desert Loxosceles, and Violin Spider; Comb-footed Spider family such as American House Spider, and Black Widow Spider; Sheet-web Weaver family such as Hammock Spider; Orb Weaver family such as Orb weavers, barn spider, Garden spider (cross spider), Marbled orb Weaver, Shamrock Spider, Six-spotted Orb-weaver, Silver Argiope, Black- and-Yelley Rgiope, Crablike Spiny Orb Weaver, Bola Spider, Arrow-shaped Micrathena, and Golden-silk spider (calico spider); Large-jawed Orb Weaver family such as Mabel Orchard Spider, Venusta Orchard Spider, Elongate Long- jawed Orb Weaver, and Long-jawed Orb Weaver; Funnel Web Weaver family such as Grass Spiders; Nursery Web Spider family such as Brownish-grey Fishing Spider, Six-spotted Fishing spider, and Nursery Web Spider; Wolf Spider family such as Burrowing Wolf Spiders, Carolina Wolf spider, Forest Wolf Spider, rabid wolf spider, and Thin-legged Wolf spider; Sux Spider family such as Jumping Lynx spider family such as Wandering spider family such as Jumping Lynx spider family such as Selenopid Crab Spider; Crab Spider family such as Goldenrod spider (flower spider, end-Spider; Crab Spider family such as Goldenrod spider (flower spider; Philodromid family such as Inconspicuous Crab Spider; Jumping Spiders such as Green Lyssomanes, Dimorphic Jumping Spider, Metaphid Jumping Spider, Ant-mimic Jumping spider, and Daring Jumping spider Daddy-long-legs family such as Eastern Daddy-long-legs and Brown Daddy-long- legs
Ticks	Blacklegged tick, Brown dog tick, Deer tick
