Keisha Cureton
Product Registration Specialist
F7214 6.6 RTS HERBICIDE
FMC Corporation
2929 Walnut Street
Philadelphia, PA 19104

Subject: Notification per PRN 98-10 – Addition of Icons/Logos
Product Name: F7214 6.6 RTS HERBICIDE
EPA Registration Number: 279-3463
Application Date: 4/24/2024
Case Number: 608170

Dear Keisha Cureton:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “NOTIFICATION” and placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, please contact Sarah Meadows at 202-566-2828 or at meadows.sarah@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Emily Schmid". To the right of the signature, the word "FOR" is written in small, capital letters.

Emily Schmid, Product Manager 25
Herbicide Branch
Registration Division (7505P)
Office of Pesticide Programs

Questions, Comments or Medical Information

{Note to Reviewer: Text in brackets is optional}

[Inside]

FIRST AID	
If swallowed	<ul style="list-style-type: none"> • Call poison control center or doctor immediately for treatment advice. • Have a person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
HOTLINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-(800)-331-3148 for emergency medical treatment information.	

PRECAUTIONARY STATEMENTS**HAZARDS TO HUMANS AND DOMESTIC ANIMALS****CAUTION**

Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wear long-sleeved shirt, long pants, shoes, socks and waterproof gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to marine/estuarine invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems.

This product may impact surface water quality due to runoff of rain water or spray drift. Under certain conditions this product may have a high potential for runoff into surface water for several months after application. This is especially true for poorly draining soils and soils with shallow ground water.

The active ingredients in this product are known to leach through soil into groundwater under certain conditions as a result of labeled use. Use of this product in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Observe all cautions and limitations on this label. The use of F7214 6.6 RTS Herbicide not consistent with this label may result in plant injury. Keep container closed to avoid spills and contamination.

PRODUCT INFORMATION

F7214 6.6 RTS Herbicide selectively controls tough weeds like crabgrass, chickweed, dandelion, clover, ground ivy, purple* and yellow nutsedge (nutgrass), Kyllinga, wild onion and garlic, broadleaf plantain, purslane, wild violet, spurge, and other listed annual, biennial, and broadleaf weeds in a variety of lawns, including:

*Not for use in California

F7214 6.6 RTS HERBICIDE

{Note to Reviewer: Text in brackets is optional}

6/22/202204/24/2024

Cool Season Grasses
Tall & Fine Fescue
Kentucky Bluegrass
Rough Bluegrass
Ryegrass (perennial)

Warm Season Grasses
Common & Hybrid Bermudagrass
Zoysiagrass
Centipedegrass
Buffalograss
Seashore Paspalum

F7214 6.6 Herbicide has demonstrated tolerance on both cool and warm season turfgrasses. However, not all varieties have been evaluated. Some turf varieties are more susceptible to temporary turf discoloration than others. It is recommended to treat a small area prior to treatment of larger areas.

This unique formula causes visual symptoms to develop quickly within 3 to 7 days after application. F7214 6.6 RTS Herbicide involves uptake by both weed roots and shoots. Complete kill should occur in 2-3 weeks. F7214 6.6 RTS Herbicide also controls yellow nutsedge tubers (nutlets) in the soil over time.

A postemergence application of F7214 6.6 RTS Herbicide is improved when adequate soil moisture is present at application.

STORAGE AND DISPOSAL

Pesticide Storage

Keep from freezing. Do not store below 32°F. Keep out of reach of children and animals. Store in original container only. Store in a cool, dry place, preferably in a locked storage area and avoid excess heat.

In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confine spills. Call FMC: (800) 331-3148.

To confine spill: If liquid, dike surrounding area or absorb with sand, cat litter or commercial clay. If dry material, cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

Pesticide Disposal

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Handling

(For containers 5 gallons or less)

Non-refillable container. Do not reuse or refill this container. If empty: Offer for recycling, if available, or dispose of in trash. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

(For containers greater than 5 gallons – transportation/formulating purposes only. Containers greater than 5 gallons are not for sale or distribution to end users)

Non-refillable container. Do not reuse or refill this container. Triple rinse (or pressure rinse) as follows:

Triple Rinse as follows: Empty remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

F7214 6.6 RTS HERBICIDE

{Note to Reviewer: Text in brackets is optional}

6/22/202204/24/2024

Pressure rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or a mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

Notice: To the extent consistent with applicable law, buyer assumes all risks of use, storage or handling of this product not in accordance with label directions.

{**OPTION 1: Directions for use on Concentrate packages:**}

APPLICATION INSTRUCTIONS AND PRECAUTIONS

Where to Use	{Icons may be used for any below} Lawns: Well established turfgrasses. Cool Season Grasses: Fine & Tall Fescue, Perennial Ryegrass, Kentucky & Rough Bluegrass Warm Season Grasses: Common & Hybrid Bermudagrass, Buffalograss, Centipedegrass, Seashore Paspalum, Zoysiagrass. Do not use on St. Augustinegrass.
Kills	{Icons may be used for any below} Sedges, Grasses and Broadleaf Weeds: Yellow Nutsedge, Kyllinga, Crabgrass, Foxtail, Ground Ivy, Wild Violet, Plantain, Dandelion, Clover, Dollarweed, Spurge, Woodsorrel, Knotweed, Chickweed, Curly Dock, Wild Onion, Wild Garlic, and other listed weeds.
When to Use	When weeds are small and actively growing. For best performance, apply when temperatures are [between] 55°F - 85°F.
How Much to Use	4 fl oz per 1 gallon of water per 1,000 ft ² . Spot spray weed directly until thoroughly covered . Some weeds may require repeat application. (See detailed instructions.)
Coverage	XX oz [bottle] covers up to XXXX ft ²

[icon phone] [icon computer] Questions & Comments: Call X-XXX-XXX-XXXX or visit our website at [insert website address]

HOW TO APPLY:

- Measure the entire area to be sprayed. For rectangular areas, multiply the length by width to obtain total square feet.
- Shake well before use.
- [• Remove measuring cap and fill cap according to chart below.]
- Pour into sprayer and add corresponding amount of water [according to chart below].

Amount of F7214 6.6 RTS	Amount of Water	Coverage
[1 fl oz]	[1 Quart (32 oz)]	[250 ft ²]
[2 fl oz]	[½ Gallon (64 oz)]	[500 ft ²]
4 fl oz	1 Gallon (128 oz)	1000 ft ²
[6 fl oz]	[1½ Gallons (192 oz)]	[1500 ft ²]
[8 fl oz]	[2 Gallons (256 oz)]	[2000 ft ²]
[X fl oz]	[X Gallons (XXX oz)]	[XXXX ft ²]

F7214 6.6 RTS HERBICIDE

{Note to Reviewer: Text in brackets is optional}

6/22/202204/24/2024

{Note to reviewer: Values for less than or greater than 1000 ft² may be added to deleted, depending on package size}

PUMP-STYLE TANK SPRAYERS

- Close sprayer tightly and pressurize with hand pump.
- For spot applications, use a coarse spray nozzle. For larger area applications, use a fan spray nozzle.
- Hold tip of wand 12 inches from target area while spraying.

DIAL-STYLE HOSE-END SPRAYERS

- Fill sprayer jar with enough product for the area to be treated. DO NOT ADD WATER.
- Close sprayer, set dial, hook to garden hose and apply.
- Pour any unused product back into the product's original container.

APPLICATION INSTRUCTIONS:

- Best weed control results will be obtained when no rainfall or irrigation occurs within 24 hours after application.
- Listed Sedges and Grassy Weeds: Spray directly on emerged weeds. F7214 6.6 RTS Herbicide is effective against newly emerged and established sedges and grassy weeds.
- Listed Broadleaf Weeds: Spray directly on newly emerged weeds.
- For best results, apply to weeds when less than 3 inches high.
- Apply in calm weather.
- Begin spraying at the farthest point of the treatment area and work backward to avoid contact with wet treated surfaces.
- Good spray coverage is needed for optimum control.
- Avoid overlap spraying.
- Avoid side to side or swinging arm motion, as it can result in uneven coverage.
- If listed weeds are not controlled by the initial application, apply a second application 4 to 6 weeks after the initial treatment.
- Water lawn with at least 0.5 inches within 7 days (but not sooner than 1 day after application) if no rainfall or irrigation occurs within 7 days after application.

APPLICATION RESTRICTIONS

Keep children and pets out of the treated area until sprays have dried.
Do not spray over the top of flowers, ornamentals (including herbaceous) or garden vegetables.
Do not use on turfgrasses other than those listed on the label.
Do not use in greenhouses.
Do not graze or feed animals with treated grass clippings.
Do not apply to newly planted, plugged, or sodded turfgrass.
Do not release spray at a height greater than 30 inches above the ground.
Do not apply when wind speeds are greater than 10 mph at the application site.

APPLICATION PRECAUTIONS

Use only on well-established non-stressed turfgrass. Applications to stressed plants (turfgrass or target weeds) may result in temporary discoloration or poor weed control. Allow turfgrass to develop good root system before applying.
If discoloration occurs, treated turfgrass will recover with new growth and discolored leaf tissue will be removed with mowing. To reduce potential for discoloration, do not apply on turfgrass that is weakened by weather,

F7214 6.6 RTS HERBICIDE

{Note to Reviewer: Text in brackets is optional}

6/22/202204/24/2024

mechanical, chemical, disease or other related stress. Maintain proper cultural practices such as adequate moisture and fertility levels to promote healthy turfgrass growth.

Avoid applying when windy to prevent product drifting to other plants.

Avoid reseeding, winter overseeding or plugging lawns for at least 4 weeks after treatment.

Grass and sedge weed species controlled or suppressed by F7214 6.6 RTS Herbicide:

Common Name	Scientific Name
Barnyardgrass	(<i>Echinochloa crus-galli</i>)

*Not for use in California

Certain listed weeds may require more than one application to achieve season-long control.

{End OPTION 1}

{OPTION 2: Directions for Use on Ready-to-Spray Packages:}

APPLICATION INSTRUCTIONS AND PRECAUTIONS

Where to Use	Lawns: Well established turfgrasses. Cool Season Grasses: Fine & Tall Fescue, Perennial Ryegrass, Kentucky & Rough Bluegrass Warm Season Grasses: Common & Hybrid Bermudagrass, Buffalograss, Centipedegrass, Seashore Paspalum, Zoysiagrass. Do not use on St. Augustinegrass.
Kills	Sedges, Grasses and Broadleaf Weeds: Yellow Nutsedge, Kyllinga, Crabgrass, Foxtail, Ground Ivy, Wild Violet, Plantain, Dandelion, Clover, Dollarweed, Spurge, Woodsorrel, Knotweed, Chickweed, Curly Dock, Wild Onion, Wild Garlic, and other listed weeds.
When to Use	When weeds are small and actively growing. For best performance, apply when temperatures are [between] 55°F - 85°F.
How Much to Use	4 fl oz in one gallon treats 1000 ft ² . Spot spray weed directly until thoroughly covered. Mixes automatically as you spray. Some weeds may require repeat application. (See detailed instructions.)
Coverage	XX oz [bottle] treats XXX ft ²

HOW TO APPLY

Ready Spray Hose-End Sprayer

1. Measure the entire area to be sprayed. For rectangular areas, multiply the length by width to obtain total square feet.
2. See below for directions for the ready-to-use hose-end sprayer.
3. Spray evenly over the entire measured area.

Amount of F7214 6.6 RTS	Provides Coverage of Area Size:
[1 fl oz]	[250 ft ²]
[2 fl oz]	[500 ft ²]
4 fl oz	1000 ft ²
[6 fl oz]	[1500 ft ²]
[8 fl oz]	[2000 ft ²]
[XX fl oz]	[XXXX ft ²]

{Note to reviewer: Values for less than or greater than 1000 ft² may be added or deleted, depending on package size}

Connect

F7214 6.6 RTS HERBICIDE

{Note to Reviewer: Text in brackets is optional}

6/22/202204/24/2024

1. Shake well before using.
2. Connect sprayer to hose.
3. Turn on water.
4. Extend hose to farthest area of the measures area to be treated.

Spray

1. To begin spraying, point nozzle in the direction you want to spray.
2. Slide thumb activation switch forward to [ON] [MIX] position.
3. Spray evenly over measured area.

Finish

1. To STOP spraying, slide thumb activation switch backward to OFF position.
2. Turn off water.
3. Relieve water pressure by sliding thumb switch to WATER ONLY position until water slows to a drip. Then, slide switch back to OFF position.
4. Disconnect sprayer from hose.

[Hose End Sprayer Connection

1. Shake Well.
2. Make sure control lever is in the **OFF** position. Attach to hose.
3. Turn on water.]

[Spray

1. Aim towards direction of application and away from you.
2. Turn control lever to **ON** to begin spraying.
3. Spray evenly and as directed for specified type of treatment area.]

[Stop

1. When finished turn control lever to **OFF**.
2. Turn faucet **OFF**. Discharge residual water pressure by turning control lever **ON** and **OFF** again.
3. Disconnect Sprayer and Store / Discard as instructed.]

Coverage: 4 oz per 1,000 sq. ft.

APPLICATION INSTRUCTIONS:

- Best weed control results will be obtained when no rainfall or irrigation occurs within 24 hours after application.
- Listed sedges and grassy weeds: Spray directly on emerged weeds. F7214 6.6 RTS Herbicide is effective against newly emerged and established sedges and grassy weeds.
- Listed broadleaf weeds: Spray directly on newly emerged weeds.
- For best results, apply to weeds when less than 3 inches high.
- Apply in calm weather.
- Begin spraying at the farthest point of the treatment area and work backward to avoid contact with wet treated surfaces.
- Good spray coverage is needed for optimum control.
- Avoid overlap spraying.
- Avoid a side to side or swinging arm motion, as it can result in uneven coverage.
- If listed weeds are not controlled by the initial application, apply a second application 4 to 6 weeks after the initial treatment.
- Water lawn with at least 0.5 inches within 7 days (but not sooner than 1 day after application) if no rainfall or irrigation occurs within 7 days after application.

APPLICATION RESTRICTIONS

Keep children and pets out of the treated area until sprays have dried.

F7214 6.6 RTS HERBICIDE

6/22/202204/24/2024

{Note to Reviewer: Text in brackets is optional}

Do not spray over the top of flowers, ornamentals (including herbaceous) or garden vegetables.

Do not use on turfgrasses other than those listed on the label.

Do not use in greenhouses.

Do not graze or feed animals with treated grass clippings.

Do not apply to newly planted, plugged, or sodded turfgrass.

Do not release spray at a height greater than 30 inches above the ground.

Do not apply when wind speeds are greater than 10 mph at the application site.

APPLICATION PRECAUTIONS

Use only on well established non-stressed turfgrass. Applications to stressed plants (turfgrass or target weeds) may result in temporary discoloration or poor weed control. Allow turfgrass to develop good root system before applying.

If discoloration occurs, treated turfgrass will recover with new growth and discolored leaf tissue will be removed with mowing. To reduce potential for discoloration, do not apply on turfgrass that is weakened by weather, mechanical, chemical, disease or other related stress. Maintain proper cultural practices such as adequate moisture and fertility levels to promote healthy turfgrass growth.

Avoid applying when windy to prevent product drifting to other plants.

Avoid reseeding, winter overseeding, or plugging lawns for at least 4 weeks after treatment.
