Attention: Billy Sims

Gentlemen:

Subject: Amendment - Martin's Bombane Jet Stream
EPA Registration No. 299-165
Your Letter Dated November 20, 1984

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable, provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

1. Delete you present protective clothing paragraph under Directions For Use and add: For all uses indicated below, applicators must wear the following protective clothing during the application process: a lightweight protective suit or coveralls; and unlined, waterproof gloves.
2. Add appropriate Storage and Disposal statement. See FR Notices 83-3 and 84-1.

Submit five (5) copies of your revised final printed labeling before you release the product for shipment with the amended labeling.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (TS-767)

or incinerate container. Do not expose to heat or store at temperature above 130° F. Do not spray into or near open flame. Avoid strong alkalis, and powdered metals.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For all uses indicated below applicators must wear the following protective clothing during the application process: a lightweight, protective suit or coveralls; water-resistant hat; unlined, waterproof gloves; and unlined, lightweight boots. Mixers and loaders must also wear goggles or a face shield, waterproof gloves and a waterproof apron.

EAR TICK CONTROL: Apply thoroughly to inner surface and base of ears, completely covering all areas and penetrating hair to skin. Repeat treatment as necessary.

TREATMENT OF SCREWORM INFESTATIONS IN SUPERFICIAL CUTS OR WOUNDS: Spray directly into and one inch around infested wounds. Also spray drainage area below wound. Repeat treatment twice weekly until wound heals.

PROTECTION AGAINST SCREWORMS: Spray all wounds (wire cuts, dehorning, castration, docking, etc.) as soon as possible to prevent screwworm infestation. Repeat treatment twice weekly until wound heals.

FLEECE WORMS AND OTHER BLOW FLIES: Spray directly on infested areas and to a distance of two or three inches outside the infestation. Repeat treatment twice weekly until infestation is controlled.
