Use Dursban Lawn Spray to control Chinch Bugs, Sod Webworms (Lawn Moths), Armyworms, Ants, Crickets, Cutworms, Earwigs, Grasshoppers, Pillbugs, Brown Dog Ticks, and Fleas on home lawns and other ornamental turf areas. Mix with water according to directions given in the following table and apply uniformly as a coarse (large droplet) spray using a low pressure sprayer.

Area To Be Treated	Amount of Dursban Lawn Spray	Dilute With Water to Make
750 sq. ft.	1 pint	25 gallons
1500 sq. ft.	1 quart	50 gallons
6000 sq. ft.	1 gallon	200 gallons

Make first treatment when insects first appear and retreat as needed. The lawn should be moist at the time of application.

For individual fire ant mounds, apply Dursban Lawn Spray as a drench, diluted at the rate of 15.5 fl. oz. (465 ml) per 4 gallons of water. Gently sprinkle a total of 1 gallon of the diluted emulsion over the surface of each mound using a gentle spray (such as a sprinkler can). Thoroughly wet mound and surrounding areas to a 4 ft. diameter (12 sq. ft.). For best results,

apply in cool weather, 65-80° F, or in the early morning or late evening hours. Treat new mounds as they appear. Pressurized sprays may disturb the ants and cause migration, reducing product effectiveness.

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Keep out of reach of children. May be harmful if swallowed. May be absorbed through skin. This product is combustible. Keep children and pets off treated areas until the spray has dried. Do not get in eyes or on skin. Wash thoroughly after handling. Wash contaminated clothing before re-use. Flush contaminated eyes with plenty of water and get medical attention. Avoid breathing spray mist or vapors. Avoid spraying food crops. Keep away from food, feedstuffs, and domestic water supplies. Keep container tightly closed. Handle concentrate in a ventilated area. **DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.**

**ENVIRONMENTAL HAZARDS**  
This product is toxic to fish, wildlife, and birds. Do not contaminate water by cleaning of

equipment or disposal of wastes. Keep out of lawn and garden fish pools and other bodies of water. Fish may be killed if their waters are contaminated with this product. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from treated areas.

**NOTE TO PHYSICIAN:** Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine by injection only is an antidote.

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### STORAGE & DISPOSAL

**STORAGE:** Do not contaminate water, food, or feed by storage or disposal. Store in original container until used. Store out of reach of children, pets, and animals. Do not store near heat or open flame.

**DISPOSAL:** Do not reuse empty container. Rinse thoroughly. Securely wrap original container in several layers of newspaper and discard in trash collection.

Not Reviewed. Registrant claims to be in accordance with registration of Dursban Product. Reference for Phase 2 Review, Part 2.12, Ants to Next Dates in Status.
