

ACCEPTED

OCT 17 1975

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No.

Carpet Beetles—Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks and infested areas of shelves and closets. Repeat as necessary.

Brown Dog Ticks—Spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of pets and localized areas of floors and floor coverings. Repeat as necessary. Precautions should be placed in animal quarters after treatment. Do not treat animals.

Flies, Mosquitoes, Wasps and Flying Moths—outdoors—For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages and other places where these insects alight or aggregate.

Chiggers, Ants, Brown Dog Ticks and Clover Mites—outdoors—For treatment of localized infestations of insects in outdoor areas where there is no vegetation for food or feed, spray infested areas. For ants, wet hills and runways. Repeat as necessary.

E.P.A. Reg. No. 299-124
E.P.A. Est. 277-TX-1
