

## FEATURES, CLAIMS, AND USES

**FOR HOSPITAL USE AND BROAD-SPECTRUM DISINFECTING/ANTIMICROBIAL ACTIVITY ON HARD, NONPOROUS, INANIMATE ENVIRONMENTAL SURFACES**

**A POWERFUL CLEANER AND TWO-WAY ODOR ELIMINATOR THAT ATTACKS MALODORS AT THEIR SOURCE**

**NO RUB • NO RINSE • NO MESS**  
(Food contact surfaces require a potable water rinse)

- No mixing ... comes ready-to-use ... instantly!
- Won't spill, evaporate, or become contaminated.
- Leaves surfaces thoroughly cleaned, disinfected, and deodorized.
- Inactivates the viruses that cause "AIDS", genital Herpes, and Hong Kong Flu.
- Powerful germicidal action kills Staph, Strep, and many other dangerous bacteria and fungi.
- Has dual-mode, long-lasting deodorizing action
- Does not affect sense of smell (will not cause anosmia).
- Destroys microorganism-caused putrefactive odors.
- Attacks chemical malodors at the molecular level.
- Dissolves soap scum and foams away dirt
- Contains no abrasives, will not scratch delicate surfaces.

**VIROCIDAL**- Inactivates these agents: Human Immunodeficiency virus Type 1 (HIV-1; a retrovirus that causes "AIDS" (Acquired Immune Deficiency Syndrome)); Herpes simplex Type 2 (a herpesvirus that causes genital lesions); Herpes simplex Type 1 (a herpesvirus that causes cold sores); Vaccinia (a poxvirus that causes cowpox); and Influenza A2/Hong Kong (a myxovirus that causes a type of "flu").

**BACTERICIDAL**- kills these species: *Bacillus subtilis*; *Escherichia coli*; *Klebsiella pneumoniae* (*E. coli* var. *communior*); *Pseudomonas aeruginosa*; *Salmonella choleraesuis*, and *Staphylococcus aureus*.

**FUNGICIDAL**- kills these species: *Aspergillus niger*; *Candida albicans*; *Penicillium pinophilum* (*furculosum*; *luteum*); *Penicillium variable*, and *Trichophyton mentagrophytes* (*interdigitale*, the "athlete's foot" fungi)

**MILDEWSTATIC**- Inhibits growth of fungi that cause mold/mildew, including: *Aspergillus niger* and *Penicillium variable*.

Decontaminates surfaces three ways leaving them thoroughly cleaned, disinfected, and deodorized. Eliminates mixing time, dilution errors, product contamination, and spills found with not-ready-to-use non-sealed products. Economical foam application makes product go farther and last longer.

Destroys many microorganisms which threaten public health or create unpleasant odors and other undesirable effects. Reduces the hazard of nosocomial infections and cross contamination in

## USE LOCATIONS FOR USE IN OR ON ...

**INDUSTRIAL FACILITIES, PREMISES, BUILDINGS, EQUIPMENT, & VEHICLES:** Factories, manufacturing plants, warehouses, seed houses, offices, laboratories, cars, trucks, trains, boats, ships, barges, tankers, airplanes, and helicopters; delivery vehicles; tank trucks; maintenance vehicles; and maintenance equipment.

**INSTITUTIONAL FACILITIES, PREMISES, BUILDINGS, EQUIPMENT, & VEHICLES:** Public buildings; public transportation; public restrooms; public/private universities, colleges, schools, kindergartens, preschools, day care centers, classrooms, laboratories, gymnasiums, fieldhouses, indoor pools, dressing rooms, & locker rooms; churches, temples, clubs, fraternal organizations, & country clubs; public/private zoos, aquariums, farms, stables, & kennels; public/private greenhouses, lathouses, and other indoor gardens & landscaping; public/private institutional cars, vans, busses, trucks, trains, boats, ships, airplanes, & helicopters; delivery vehicles; maintenance vehicles; and maintenance equipment.

**MEDICAL FACILITIES, PREMISES, BUILDINGS, EQUIPMENT, & VEHICLES:** Medical, dental, and veterinary units such as public/private hospitals, nursing homes, hospices, laboratories, carts, gurneys, stretchers, and ambulances; doctor's & dentist's offices & clinics; veterinary offices, clinics, & animal hospitals; cars, vans, busses, trucks, trains, boats, ships, airplanes, & helicopters; delivery vehicles; maintenance vehicles; and maintenance equipment.

**COMMERCIAL FACILITIES, PREMISES, BUILDINGS, EQUIPMENT, & VEHICLES:** Offices, office complexes, stores, supermarkets, shopping malls, markets, hotels & motels, theaters, shows, amusement parks, funeral homes, pet shops, kennels & stables, pet boarding facilities, greenhouses, lathouses, indoor gardens & landscaping, laboratories, warehouses, seed houses, taxis, limousines, vans, busses, trucks, trailers, boats, ships, ship cabins, cargo holds, barges, trains, freight cars, railcars, boxcars, airplanes, & helicopters; delivery carts; delivery trucks; tank trucks; maintenance trucks; and maintenance equipment.

**FOOD/DRINK/FEED FACILITIES, PREMISES, BUILDINGS, EQUIPMENT, & VEHICLES:** Food and non-food areas of food/drink/feed harvesting, handling, transportation, processing, packaging, storage, and serving units, such as food processing plants, bottling plants, dairies, milk storage rooms, breweries, canneries, egg processing plants, flour mills, feed mills, bakeries, caterers, food warehouses, kitchens, restaurants/caterers, banquet halls, bars/laverns, night clubs/discos, supermarkets, delicatessens, butcher shops, fish markets, vegetable/fruit stands, vending machines, vending trucks, vans, trucks, tank trucks, trailers, freight cars, boxcars, ships, barges, tankers, and cargo holds.

**AGRICULTURAL FACILITIES, PREMISES, BUILDINGS, EQUIPMENT, & VEHICLES:** Farmhouses, barns, sheds, garages, tool sheds, well houses, grain elevators, grain bins, silos, milk/dairy barns, cattle barns, swine barns, sheep barns, horse barns, poultry houses, brooder houses, bins, tanks, tractors, combines, harvesting equipment, wagons, cars, vans, trucks, trailers, boats, ships, barges, airplanes, and helicopters.

**RESIDENTIAL FACILITIES, PREMISES, GROUNDS, BUILDINGS, EQUIPMENT, & VEHICLES:** Homes, condos, apartments, vacation cottages, summer homes, garages, sheds, barns, yards, patios, swimming pools, cars, automobiles, vans, campers, trailers, mobile homes, boats, trucks, and planes.

**SAFE TO USE ON:** most nonporous glass, ceramic, painted, plastic, varnished, enameled, leather, wood, metal, concrete, and other surfaces, including • Stainless steel • Aluminum • Iron & Steel • Chrome • Brass • Copper • Sealed Cement • Grouting • Tile • Porcelain • Formica • Finished woodwork • Leatherette • Vinyl.

**EXCELLENT FOR CLEANING AND DECONTAMINATING:** Surfaces such as Toilet seats & Toilets • Urinals • Bathtubs • Shower stalls • Bathroom fixtures • Floors • Walls • Ceilings • Telephones • Bed frames & springs • Tiled surfaces • Wash basins • Sinks • Counter tops • Table tops • Hoods, laminar flow cabinets & hoods, exhaust fans, & air ducts • Railings & door knobs • Light switches & fixtures • Plastic upholstery • Wheelchairs • Laundry, linen, dressing, clean-up, & equipment carts • Laundry chutes & hampers • Trash compactors • Diaper pails • Garbage & refuse containers • Pet quarters • Furniture • Machinery • Equipment • Medical equipment & furniture • many other similar public and residential surfaces which could harbor and transmit dangerous viruses and other microorganisms.

**TWO-WAY SURFACE DEODORIZING ACTION:** Its fresh scent acts instantly and remains effective for long periods on unpleasant odors. Quickly counteracts "CHEMICAL" (MOLECULAR) MALODORS such as garlic, onion, tobacco smoke, stale odors, musty smells, fish, gas, and urine; in kitchens, bathrooms, basements, and many other occasionally malodorous, unpleasant areas and situations. Kills many microorganisms that generate the "BIOLOGICAL" MALODORS associated with surgical dressings, ostomy pouches & dressings, malignant diseases, excised organs and tissue, fecal matter, burns, perspiration, mold/mildew, garbage, and other decaying, putrefying organic matter.

**IN DENTAL FACILITIES**  
This powerful hospital-type cleaner/disinfectant/deodorant helps decontaminate germ-laden and virus-contaminated furniture, equipment, and other surfaces in dental facilities, such as the patient's and operator's chairs, operator's light, working surfaces, bracket table, evacuator reservoir, tray racks and trays, x-ray control panel and button, viewer waiting room furniture, bathroom fixtures, lab areas and equipment, railings and door knobs, and other public surfaces which could harbor and transmit dangerous viruses and other microorganisms. Use this product first to clean, then to disinfect and deodorize these and many other surfaces. Reduces the hazard of bacterial cross contamination.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### TOILET AND URINAL BOWLS

**GENERAL:** Shake container well before each use. Hold upside down with spray button pointed toward inside bowl surface from about 6 to 8" (1/5 m) away. To spray, press firmly on spray button.

**TO KILL HIV-1 (Human immunodeficiency virus Type 1; AIDS virus) ON PRE-CLEANED SURFACES/OBJECTS** (In health care or other settings with inanimate environmental surfaces/objects associated with the potential for transmission of HIV-1 and likely to be soiled with blood/body fluids), follow these additional **SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATING AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:** PERSONAL PROTECTION- Barrier protection items such as disposable latex gloves, gowns, masks, and eye coverings should be worn when handling items soiled with blood/body fluids. **CLEANING PROCEDURE-** Blood/body fluids must be thoroughly cleaned from surfaces/objects before application of this product as a disinfectant. **CONTACT TIME-** Same as for disinfecting. **DISPOSAL OF INFECTIOUS MATERIALS-** Blood/body fluids and other materials removed from or used to clean surfaces/objects should be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.

**TO CLEAN AND DEODORIZE-** A pre cleaning step with an acid bowl cleaner, abrasive pad, or scraper may be necessary to remove built-up hard water deposits, rust stains, and other stubborn surface residues. Flush unit and remove as much water as possible by pushing it over the trap with a bowl mop (swab). Apply this product to all internal surfaces, especially up under the flush rim, into any grooves or recesses, and down into trap. Allow about a minute for the foam to start penetrating and cleaning, then use bowl mop to scrub the treated surfaces. Flush the unit.

**TO DISINFECT:** For proper disinfection of cleaned inside surfaces above the water level, apply a thin coating of foam, making sure surfaces are completely covered and thoroughly wetted. Complete disinfection requires a contact time of 10 minutes at approximately 20°C (68°F). Flush unit when done.
