Attn: Sally Hayes

Subject: TOR II
EPA Registration No. 303-222
Amendment dated April 23, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, revised in accordance with PR Notice 91-7, is acceptable, provided that you:

1. Make the following labeling changes below before you release the product for shipment bearing the amended labeling:
 - a. Delete the words "milk", egg whites, and gelatin solution or if these are not available" in the "Statement of Practical Statement".
 - b. Delete the last sentence in the "Note to Physician" statement.
 - c. Revise the referral statement to read: "See side and back for additional precautionary statements".
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

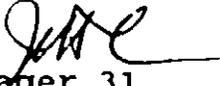

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

STATEMENT OF PRACTICAL TREATMENT

In case of skin contact, wash thoroughly with soap and water. In case of eye contact, immediately flush eyes with water for 15 minutes and get prompt medical attention. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Corrosive. Causes eye and skin damage. May be absorbed through the skin. Do not get in eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse. Harmful if swallowed. Avoid contamination of food, water, or feed.

STAPHYLOCIDAL FUNGICIDAL

TOR II is a multi-purpose germicidal detergent proven effective by the AOAC Use-Dilution Method in 400 ppm hard water (calculated as CaCO₃) in the presence of 5% organic bioload (Fetal Bovine Serum). TOR II's formula disinfects, cleans, and deodorizes in one labor saving step. TOR II is effective against the following pathogenic organisms (including some antibiotic resistant strains).

Pseudomonas aeruginosa	*HIV-1 virus
Enterobacter aerogenes	*Adenovirus Type 2
†Escherichia coli	*Herpes Simplex Type 1
Proteus mirabilis	*Influenza Type A/Mich
Shigella flexneri	*Vaccinia
**Enterococcus faecalis	*Adenovirus Type 4
Salmonella choleraesuis	*Herpes Simplex Type 2
Enterobacter cloacae	*Rubella
†Klebsiella pneumoniae	*Avian Infectious Bronchitis
Proteus vulgaris	*Avian Influenza A/Mich
Shigella sonnei	*Bovine Parvovirus
Serratia marcescens	*Infectious Bovine Rhinotracheitis
†Staphylococcus aureus	
Staphylococcus aureus phage 80	Trichophyton mentagrophytes
Staphylococcus aureus phage 81	Candida albicans
†Staphylococcus epidermidis	
Streptococcus pyogenes	

** Tested against antibiotic resistant strain only

† Tested against regular and antibiotic resistant strains.

Classified by Underwriters Laboratories, Inc. as to electrical conductivity when used on conductive floors and spontaneous heating TOR II for use with listed electrically conductive flooring of the vinyl type. 378Y

DILUTION: 1 to 64 ... TWO OUNCES PER GALLON
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL USE DIRECTIONS

USES: Floors, walls, metal surfaces, painted surfaces, exterior bowl surfaces, empty basins, showers, conductive flooring, and lavatory fixtures. For institutional use only such as in hospitals and nursing homes, schools and colleges, medical and dental offices, and veterinary clinics.

APPLICATION: Use 2 ounces of TOR II per gallon of water for a minimum contact time of 10 minutes in a single application. To disinfecting, remove gross filth and heavy soil deposits, then thoroughly wet surfaces. TOR II is extremely versatile and can be applied with mop, sponge, or cloth as well as soaking. The recommended use solution is used once and discarded. Rinsing is not necessary on floor surfaces unless floors are to be waxed or polished.

STORAGE AND DISPOSAL

PROHIBITIONS

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
