

For OUTDOOR Control of CRAWLING INSECTS

INSERID 100

Quick Kill Long Lasting Residual Action Insecticide

DIRECTIONS

Use as a coarse wetting spray, or apply with a brush.
Treat areas as directed below. Repeat applications as
necessary to maintain effective control.

To Kill Roaches, Waterbugs, Ants, Spiders, Crickets,
Silverfish, Centipedes and Other Crawling Insects Outdoors:

Treat heavily all cracks, around baseboards and other places where insects hide. Also treat until wet surfaces behind outdoor cabinets, bins, pipes, racks, etc. Also treat infested areas around refuse containers.

To Kill Flies, Mosquitoes, Flying Moths and Other
Small Flying Insects Outdoors:

As an aid in reducing the annoyance from flying insects outdoors, treat outside surfaces of screens, doors, window frames and wherever flying insects may light and enter. Also treat surfaces around outside light fixtures, waste receptacles and other places where these insects light or congregate.

ACTIVE INGREDIENTS	100.00%
