FOR INDOOR CONTROL OF FLYING INSECTS

# INSEKON 1000

QUICK KNOCKDOWN - QUICK KILL FOOD INDUSTRY INSECTICIDE

## DIRECTIONS

### To Kill Flies, Mosquitoes, Fruit Flies, Wasps and Other Small Flying Insects (Indoors)

1. Direct fine spray mist or fog of INSEKON 1000 toward upper portions of close, draft-free areas.
2. Use one-half (1/2) fluid ounce of INSEKON 1000 for each 1000 cubic feet of air space, or fill room with mist or fog.
3. Keep room closed for 15 minutes after treating for maximum effectiveness.

### To Kill Stored Product Pests:

(INSEKON 1000 controls the exposed stages of Flour Beetles, Spider Beetles, Weevils, Caddis, Meal Moths, Grain Mites, Cheese Mites and Skippers in restaurant and institutional food pantries and food storage areas.)

1. Remove and destroy infested food products to avoid reinfestation.
2. Clean all food storage areas.
3. Spray all surfaces, cracks and crevices with INSEKON 1000.
4. After initial clean-up and first application of INSEKON 1000, routine applications of INSEKON 1000 on a monthly basis or at intervals will deter reinfestation.

ACTIVE INGREDIENTS	100.0%
Pyrethrins	0.43%
Technical Piperonyl Butoxide	1.20%
Petroleum Distillate	97.75%

\*Equivalent to 1.74% butylcaranyl 6-propylsteranyl ether and 1.26% related compounds.

Camerman's Note  
Poor Copy

## CAUTION - KEEP OUT OF REACH OF CHILDREN

INSEKON 1000 is suitable to use where food is prepared, processed, served or stored. Space spray and fog treatments in food processing plants should be limited to times plant is not in operation. When direct spray or fog treatments are made, working surfaces should be covered or cleaned before re-use.

**CAUTION** Combustible mixture, do not spray near fire or flame. Do not smoke while spraying or fogging.

Harmful if swallowed.

(EXCEEDS U. S. DEPT. OF COMMERCE COMMERCIAL STANDARD CS FOR GRADE AA FLY SPRAY.)
