

Cross contamination of a person's hands is a major cause of infection in schools, institutions and industry. Environ-33 disinfectant is a powerful germicide. It both cleans and disinfects effectively and is available in a ready-to-use liquid or hard surface disinfecting action with a low level of toxicity. It is suitable for use on environmental surfaces.

When used as directed, Environ-33 will deodorize toilet bowls, urinals and bidets, sinks and counters, garbage cans and public restrooms, and other places where bacterial growth can cause malodors. Prevents odors caused by mold and mildew.

This product is economical to use because of its highly concentrated active ingredients. Handle with care.

Precautionary Statements - Hazard to Humans and Domestic Animals

### DANGER

Keep out of reach of children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid contact with food. Avoid contamination of food.

## ENVIRON 33

Highly Concentrated Germicide Based on a Unique Blend of Quaternaries  
With Organic Soil Load Tolerance

Use on hard surfaces, floors, walls, ceilings, and fixtures for Hospital and Institutional Use

### KEEP OUT OF REACH OF CHILDREN DANGER: Statement of Practical Treatment

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

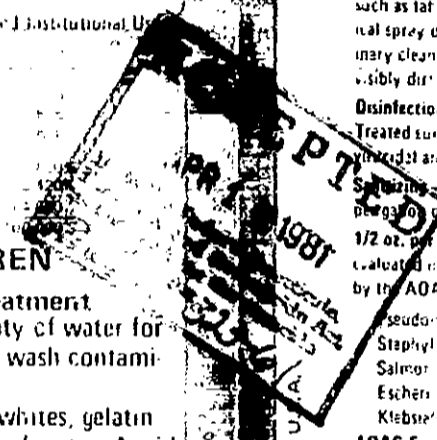

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent convulsions may be controlled by the cautious intravenous injection of a short acting barbiturate drug.
