CAUTION: Keep out of reach of children.
See side panel for additional precautions.

Net Contents - 1 fluid pint

Serial No. _____

Manufactured by
Texas Phenothiazine Company
Fort Worth, Texas 76106

DIRECTIONS: For use in controlling hornflies: Mix one pint of TPC
Back Butter Concentrate in 5 gallons of diesel oil and apply to back
rubbers or use in tack rubber devices. Saturate home-made back rubbers
for initial treatment. Re-treat at 3 to 4 week intervals during hornfly
season.

Do not allow lactating dairy animals access to back rubbers treated
with Monel nor dry dairy animals in 21 days before lactation.

Do not allow any animals access to back rubbers within 21 days of
slaughter.

CAUTION: Harmful if swallowed. Avoid inhalation. Avoid contact with
skin. Irritant to eyes. Do not get in eyes. Wash hands thoroughly
with soap and water after handling. Avoid contamination of food and
feedstuff.

In case of human eye contact, flush eyes immediately with plenty of
water and get prompt medical attention.

Monel is a cholinesterase inhibitor; should poisoning occur, obtain
prompt medical aid. Atropine is antidotal.

NOTE: Do not allow animals access to back rubbers which are
receiving organic phosphate from any other source, or receiving
Monel-medicated feed or supplement.
