TPC

RE-PEL

DIRECTIONS:

Mix TPC Re-Pel Emulsifiable Fly Spray with water at proper dilution. Mix fresh solution before each use. Pour required amount of Re-Pel in container and add the proper amount of water for desired solution and mix thoroughly. Apply with pressure sprayer or sponge it on horses. Make sure horse's coat is thoroughly wet all over with the solution.

To protect horses from Horn flies, House flies, Gnats, and Mosquitoes use 1 part TPC Re-Pel to 7 parts of water. Repeat application every 3 or 4 days or as often as needed. Avoid getting solution in animal's eyes.
