# FLY-CON-90

PHENOTHIAZINE ADDITIVE FOR LIQUID FEEDS

A wettable powder insecticide for low level administration of phenothiazine in Liquid Feed supplements for beef cattle to prevent development of hornfly maggots and as an aid in preventing the breeding of face flies in the manure of treated cattle.

This product will not affect the population of existing adult flies.

**ACTIVE INGREDIENT:**

Phenothiazine

90.0%

**INERT INGREDIENT**

10.0%

Total

100.0%

FOR USE IN MANUFACTURING LIQUID CATTLE FEED SUPPLEMENTS ONLY.

**DIRECTIONS:** Add 3 1/2 pounds of FLY-CON-90 to 1 quart of water in a clean pail or bucket and stir thoroughly or until smooth. Add this mixture to the liquid feed supplements at a level which will provide 2 grains phenothiazine per pound per day for each 800 pound animal. Agitate thoroughly to assure proper mixing.

**CAUTION:** Keep out of reach of children.

**CAUTION:** Do not add FLY-CON-90 directly to liquid feed supplement without first pre-mixing with water. Do not feed to lactating dairy animals. Wash with soap and water after handling product.

This product is toxic to fish, birds and other wildlife. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke of fires.

**WARNING:** Occasional sensitivity to Phenothiazine has been reported in cattle. Symptoms include temporary blindness and loss of skin or hair. If toxic symptoms develop, take animals off treated feed and avoid exposure to daylight for several days.
