PUSH VALVE

AIDS IN REDUCING THE HAZARD OF INFECTION BY AIR-BORNE BACTERIA AND VIRUSES.

Periodic use as a spray acts to aid as a temporary decontaminating process for use with surface disinfection where there is reason to suspect that the atmosphere is heavily contaminated with air-borne bacteria.

For **MAKING AIR MORE PLEASANT AND DESTROYING MANY DISAGREEABLE ODORS**, Spray 3 to 5 seconds into the air. Odors such as from Garlic, Onions, Fish, Smoke, Bathrooms, Closets or due to Perspiration, Putrefaction, Decay, are destroyed and not merely covered up. Odors are eliminated quickly and effectively.

Caution: Contents under pressure. Do not puncture or incinerate. Do not set on stove or radiator or keep where temperature will exceed 120° F. as container may burst. Avoid contact with skin and eyes, in case of contact, flush with water. If irritation persists, get medical attention. Keep out of reach of children.
