EPA

A BROAD-SPECTRUM ANTIMICROBIAL AGENT FOR ENVIRONMENTAL SURFACES

**POWERFUL • PLEASANT • QUICK ACTING
ELIMINATES ODORS BY ATTACKING THEM AT THEIR SOURCE**

VIRUCIDICAL - Eliminates the following viruses and viral diseases: Polio, Measles, Rubella, Types 1 & 2 Herpes, Coxsackie, Adenovirus, Rotavirus, and the virus causing hepatitis. Influenza A, B, C, Hong Kong and Chinese influenza, Marburg, Ebola, Vaccinia, Adenovirus, Herpesvirus, and other viruses.

BACTERICIDICAL - Kills the following: Pseudomonas, Aerobius, Shigella, Clostridium, aureus, Salmonella, Shigella, Bacillus, Streptococcus, Staphylococcus aureus, Streptococcus pyogenes, Shigella, and other bacteria.

TUBERCULOCIDICAL - Kills Mycobacterium tuberculosis, Tubercle bacillus.

FUNGICIDICAL - Kills Trichophyton mentagrophytes, athlete's foot, ringworm, tinea, and other fungi.

CONTROLS MOLD/MILDEW - Completely inhibits growth of Aspergillus niger and Penicillium glaucum, and other molds.

This powerful hospital strength disinfectant and deodorant acts quickly on germ-laden surfaces such as: Toilet Seats, Urinals, Mops, Beds & Springs, Wash Basins, Refuse Cans, Telephones, Laundry Carts & Chutes, Wheel Chairs, Linen & Dressing Carts, Door Knobs, Light Switches & Fixtures, Clean up Carts, Air Ducts, Equipment Carts, Furniture, Machinery, and Equipment after they have been thoroughly cleaned. Sanitizes athletic mats, athletic shoes, and similar porous surfaces on other athletic equipment. Reduces the hazard of bacterial cross contamination.

It kills the microorganisms used, and helps to control odors caused by many biological putrefactive processes in hospitals, doctor's offices, dentist's offices, nursing homes, ambulances, veterinary offices, animal hospitals, and other medical facilities including those from surgical dressings, post-colostomy and post-ileostomy dressings, and bags, malignant diseases, fecal matter, burns, perspiration, and other decaying tissue and organic matter. Also helps to control microorganisms and putrefactive odors in food storage, processing, packaging, handling, and serving establishments & equipment, industrial and institutional facilities, plants and offices, zoos, pet boarding facilities, household pet quarters, homes, other commercial and residential facilities.

It is also a non-specific odor suppressant for space odor conditioning. Molecular deodorant attacks malodors at the source. Suppresses and eliminates odors by chemically neutralizing odor-producing materials. Does not cause asthma. It acts instantly and remains effective for long periods on unpleasant odors from sources such as garlic, onion, tobacco, stale air, musty areas, perspiration, urine, gas, fish, kitchens, bathrooms, and other occasionally unpleasant areas and situations.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes temporary eye irritation. Do not spray on or toward eyes or face. Avoid breathing spray mist or vapors. Do not contaminate food or feed nor surfaces that they may contact.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES Flush eyes with plenty of water. Call a physician if irritation persists.

PHYSICAL/CHEMICAL HAZARDS

Flammable. Do not use or store near heat, sparks, or open flame. Do not use in the vicinity of pilot lights. Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F (54°C) may cause bursting. Do not use on polished wood furniture or on rayon fabrics.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL Hold container upright. Shake occasionally during use.

FOR DISINFECTING, MILDEW CONTROL, AND DEODORIZING OF CLEAN SURFACES Spray from about 6 to 8" (150 to 200 mm) until thoroughly wetted. Allow to dry for at least 10 minutes before disturbing surface. Repeat treatment weekly to maintain effective control of mildew.

FOR DEODORIZING THE AIR Spray upward toward center and corners of room.

STORAGE AND DISPOSAL

STORAGE Store in a cool, dry, locked area away from flames, sparks, and other sources of heat or ignition. Containers heated above 130°F (54°C) may burst.

DISPOSAL Release gas on container and discard in trash. Do not incinerate or puncture.
