

EPA Reg. No. 334-227 AA

CHALK BOARD CLEANER

Leaves blackboards and chalkboards (any color) made from Slate Composition, etc. clean and bright. Prevents dusting by electrostatic action. Makes reading and writing clearer easier on the eyes of your children.

DIRECTIONS

To clean — simply spray a SMALL quantity on the board from distance of ten inches and rub lightly over entire surface with a soft cloth. Then dry thoroughly with a second cloth. Best results are obtained by using a small amount of spray.

Guaranteed to clean Chalkboards when used according to directions.

CAUTION

Harmful or fatal if swallowed.

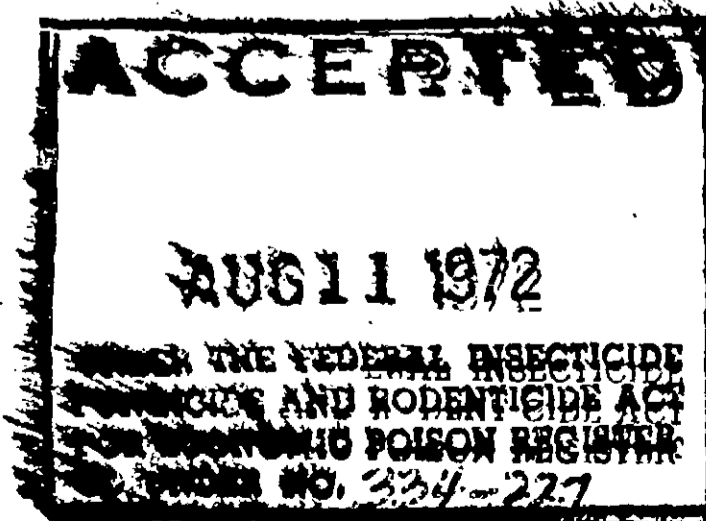

Contains Petroleum Distillate.

Do not induce vomiting if taken internally, send for physician.

WARNING: Flammable! Contents under pressure. Do not use near fire, sparks or flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.
