

DIRECTIONS FOR USE ON ENVIRONMENTAL HARD SURFACES

AS A CLEANING AGENT

For light duty cleaning, use 1 part to 64 parts water (2 oz. per gallon of water). For medium duty cleaning, use 1 part to 43 parts of water (3 oz. per gallon). For extra heavy soil, use 1 part to 16 parts of water (8 oz. per gal.)

AS A GENERAL DISINFECTANT

For use in Food Service Areas, Food Processing Plants, Institutional and Industrial Cafeterias, School Lunch Rooms, and other places where food is processed, prepared or serviced. Also for use in institutions, such as Schools, Municipalities, Old Peoples Homes, Orphan Homes, Colleges, Churches, Convents, County and Athletic Clubs, Hotels, Motels, Air Lines, Bus and Railroad Terminals, Hospitals and Clinics. Dilute 1 part of product to 40 parts of water (approx. 3.5 oz. per gallon water) in a clean bucket or portable container. If the surface is heavily soiled, use higher concentrations up to 8 oz. per gallon of water.

FOR PSEUDOMONAS DISINFECTION

Dilute 1 part of product to 30 parts of water (approx. 4 oz. per gallon water).

FOR FUNGICIDAL ACTIVITY

To kill Trichophyton interdigitale, the fungus commonly associated with Athlete's Foot condition, on environmental surfaces, use 3.5 oz. of product per gallon of water.

Apply by mop, sponge, or brush to the surface. As a general rule, destruction of bacteria is more effective the longer the surface remains in contact with the wet solution before being removed or rinsed away.

Before using in food processing areas, food products must be removed from the room or carefully protected. After use, equipment and utensils in the area must be thoroughly rinsed with potable water.

ODOR KILLING ACTIVE

334-246

- EFFECTIVE IN HARD WATER
- FAST ACTING • BUFFERED

SWINGER

The Reserve Power DETERGENT

WITH GERM-DISINFECTING ACTION

Active Ingredients: 7.63%	
Tetrasodium Ethylenediamine Tetraacetate	1.58%
Anhydrous Sodium Metasilicate	4.35%
N-Alkyl (60% C ₁₄ , 30% C ₁₆ , 5% C ₁₂ , 5% C ₁₈) Dimethyl Benzyl Ammonium Chlorides	0.75%
N-Alkyl (50% C ₁₂ , 30% C ₁₄ , 17% C ₁₆ , 3% C ₁₈) Dimethyl Ethylbenzyl Ammonium Chlorides	0.75%
N-Alkyl (C ₁₄ -92%, C ₁₆ -8%) N-Ethyl Morpholinium Ethyl Sulfate	0.10%
3,5-Dibromosalicylanilide	0.02%
3,4,5-Tribromosalicylanilide	0.08%
other related Bromosalicylanilides	
Inert Ingredients: 92.37% (Includes cleaning detergents, wetting agents, synergizing builders, chelating agents, perfume, and water.)	

Has been especially formulated for cleaning surfaces that ordinarily do not respond to most detergents. It is powerful yet safe on all Washable Surfaces. It removes the heaviest accumulations of grease, grime, dirt, and unusual soils.

Extra cleaning power is held in reserve and responds to only the catalytic action of the soil. Its amphoteric system gives a full range of cleaning power, whether the soil be alkaline, acidic, or nonpolar.

Its silicate buffered action fights corrosion. It's chelated to remove alkali ice and soap scum.

Not only a superior detergent but an effective germicide containing 15,000 parts per million before dilution, of a potent quaternary germicide, effective against a wide spectrum of microorganisms in use dilution.

Additionally, on smelly surfaces, it will not only clean and disinfect, but will destroy the unwanted odor.

Cleans and disinfects in cold or hot water. Rinses freely.

WARNING

Contains alkaline detergents. If taken internally give vine or juice of lemon, grapefruit or orange freely, follow with olive oil. Avoid contamination of food.
 EXTERNAL: Flood with water, wash with vinegar.
 EYES: Wash with 5% Boric Acid solution. If irritation persists call physician.
 Keep out of reach of children.
 Avoid getting in the eyes or on skin. In case of contact, flush with water.
BEFORE DISCARDING THIS CONTAINER RINSE THOROUGHLY WITH WATER

WARNING: KEEP OUT OF REACH OF CHILDREN HARMFUL IF SWALLOWED. CAUSES EYE AND SKIN IRRITATION. DO NOT GET IN EYES OR ON SKIN. SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONS
