

[334-252]

DIRECTIONS FOR USE
SHAKE WELL BEFORE USING
Remove cap, hold in upright position
about 2 feet from object with open-
ing in nozzle pointing in desired direction.
Press button to release spray and spray
directly on ant hills.

Soak ant hills until a white foam is visible.
REPEAT APPLICATION AS NEEDED.

REMOVE
Eliminate unsightly ant hills and mounds
from your lawn quickly. Just aim and shoot.

Scientifically compounded formulation kills
surface ants. Penetrants in product treat ant hill
slightly below the surface and prevent ants from
using existing opening.

Existing hill will be abandoned and grown-over
with grass within days.
