

A specially formulated product for use by utility companies, manufacturing plants, and firms needing control of gnawing damage caused by deer, squirrels, mice and chipmunks. Also used to protect fruit trees, shrubs, and ornamentals.

CONVENIENT TO USE — REPELS RODENTS
GOOD COVERAGE — FORMULATED TO ADHERE

INSTRUCTIONS FOR USE

For Use as a Repellent.

Treat before the expected time of animal damage. Thoroughly cover area to a point well above the reach of animals to permit repellent film to properly set. Application should be made under favorable drying conditions. Apply a heavy coating to the twigs, poles, or foliage to be protected.

During summer months, repeated applications may be necessary for twigs and foliage.

DO NOT USE ON PLANT PARTS THAT ARE TO BE USED FOR FOOD OR FEED.

ACTIVE INGREDIENTS

Thiram (Tetramethylthiuramdisulfide) 7.98%

INERT INGREDIENTS 92.02%

CAUTION

Keep out of reach of children. May irritate eyes, nose, throat and skin. Harmful if inhaled or swallowed. Do not puncture or throw in flame. Do not store above 120° F.
