

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Contains petroleum distillates. Harmful or fatal if swallowed. Do not induce vomiting if taken internally, send for physician. Remove birds, pets, fish, and children. Remove or cover food. Use only in rooms or areas that can be well ventilated after treatment. Always spray away from you. Do not remain in room that has just been treated. Stay outside treated buildings until they are thoroughly aired. Avoid inhalation. If spray gets on skin, wash immediately with soap and water. Do not get on foods, feeds, or surfaces that they may contact. Remove or cover all food and feed during treatment. All food and feed processing surfaces should be covered during treatment, or washed with soap or detergent and rinsed with potable water before using. Treat food and feed processing areas only when the facility is not in operation.

PHYSICAL/CHEMICAL HAZARDS

Flammable. Do not store at abnormally high temperatures.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: READ DIRECTIONS CAREFULLY!

Flies, Wasps, Mosquitoes, Hornets, and Gnats: When used as a space spray, close all doors, windows, and transoms. Spray with a fine mist sprayer, freely upwards in all directions so that the room is filled with the vapor. If insects have not dropped to the floor in 3 minutes, repeat spraying, as quantity sprayed was not sufficient. After 10 minutes, doors and windows should be opened. Repeat as needed.

Flaas (infesting premises): Remove and destroy animal's bedding, and spray sleeping quarters freely, forcing the spray into all cracks in the floor and about the room. Repeat when reinfested.

DIRECTIONS FOR USE (continued from left panel)

Clothes Moths and Silverfish: Brush articles thoroughly and remove grease spots. Clean and spray closets, including cracks. Spray lightly over entire surface of clothing, blankets, tapestries, etc., especially seams and folds. For **Furs and Rugs** Spray thoroughly down into the base of the pile. Spray from a distance of 2 feet (2/3 meter) from article. Repeat every 30 days.

Roaches, Ants, Water Bugs: Spray all cracks and crevices thoroughly. When these insects appear, wet them. Repeat for several days, then less frequently to prevent breeding. These insects run away and hide, but die later from effects. Spray thoroughly all ant trails and areas around door sills and window frames where the pests enter the premises. Repeat application as often as necessary.

Grain Weevils, Cadelles, Grain Moths, Flour Beetles, Grain Mites (accessible stages): Wet surfaces thoroughly and treat all infested areas, insect runways, and insect hiding places, at the rate of one gallon (3.8 L) of this material on 750 sq. ft. (70 m²) of area which is point of runoff, hitting insects directly with this spray. Repeat when necessary.

Bed Bugs: These insects must be sprayed directly to destroy eggs and eggs, take bed apart. Spray joints, slats, springs and mattresses thoroughly. Repeat operation a few days later. Spray weekly behind baseboards, moldings, pictures, and loose wallpaper, to prevent breeding.

STORAGE AND DISPOSAL

GENERAL: Do not contaminate water, food, feed, fertilizer or other pesticides by use, storage, or disposal. If damaged, leaking, or spilled, soak up and wrap waste, then dispose of as below.

STORAGE: Keep in upright, tightly closed original container in a cool, dry, locked storage area away from sources of ignition, heat, degradation, or contamination.

DISPOSAL: Do not reuse empty container. Rinse original container thoroughly, then securely wrap in several layers of newspaper and discard in trash.
