

[334-291]

FOR USE IN: Restaurants, Taverns, Stores, Kitchens, Bakeries, Cafeterias, Canneries, Locker Rooms, Utility Rooms, Food Markets, Food Processing Plants, Washrooms, Porters' Closets, Hospitals, Hotels, Bottling Plants, and other places where foods are processed and prepared.

DIRECTIONS FOR USE

DON'T WASTE—A LITTLE GOES A LONG WAY!

TO SPRAY: REMOVE PROTECTIVE CAP. HOLD CONTAINER UPRIGHT. POINT VALVE OPENING AWAY FROM FACE, PUSH BUTTON.

For Flying Insects: Flies, mosquitoes, flying moths, gnats, wasps. No need to spray directly at flying insects—the mist in the air will kill them. Close all doors and windows. Spray up into the air with a sweeping motion, keeping about 3 feet from interior walls, fabrics, furniture and plants. Keep room closed 15 minutes. Four to five seconds of spraying clears 1000 cubic feet.

For Crawling Insects: Roaches, waterbugs, silverfish, crickets. Spray hiding places such as baseboards and floor boards, moist places, openings around sinks, drains and pipes, behind bookcases, cabinets and other storage areas, hitting as many bugs as possible. Repeat as needed.

Ants: Spray trails, hills, around window sills and openings around pipes and baseboards where ants crawl, hitting as many as possible.

Spiders, Centipedes, Sow Bugs: Spray webs and the places where these pests crawl. Hit as many as possible. Repeat as needed.

Carpet Beetles: Hit these bugs directly with spray on sections of floor baseboards, shelves and carpets. Repeat spraying at frequent intervals.

Bedbugs: Spray baseboards, mouldings, floor boards. Spray mattresses, particularly around seams and tufts. Take beds apart and spray into all joints. Repeat spraying at frequent intervals.

Fleas: Spray floors, floor coverings and sleeping quarters for pet. Repeat spraying as often as necessary. Do not spray pets.

CAUTION: Never puncture or throw container into fire. Never set container on stove, radiator or places where temperature will exceed 120° which may cause it to burst. Cover fish bowls and remove birds for 1 hour when spraying rooms. Keep spray in constant motion at least 36 inches away from walls, fabrics, furniture, floor, plastics, etc. Spraying closer may cause stains or may damage certain floors or plastics. Avoid prolonged inhalation. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product as a space spray in these areas, apply only when plant is not in operation.

ACTIVE INGREDIENTS: Petroleum Distillate, N-Octyl Bicycloheptene Diethyleneamine Technical Piperonyl Butoxide*, Pyrethrins

*Consists of (Butylcarbityl) (6-Propylpiperonyl) Ether and Related Compounds

INERT INGREDIENTS: 80% Dichloro Difluoro Methane, Trichloro Methyl Chloroform
