

# PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

## CAUTION

Avoid breathing spray mist or vapor. Avoid contact with skin and eyes. Wash thoroughly with soap and water after handling. Harmful if swallowed. Cover fish bowls, and remove birds and other pets from area before treatment.

Do not get spray on foods, feeds, or surfaces that they may contact. Remove or cover all food and feed during treatment. All food and feed processing surfaces should be covered during treatment, or thoroughly cleaned and then rinsed with potable water before using. Treat food and feed processing areas only when the facility is not in operation.

### Statements of Practical Treatment

**IF IN EYES:** Flush with plenty of water. Call a physician if irritation persists.

**IF SWALLOWED:** Call a physician or Poison Control Center. Do NOT induce vomiting.

### Physical/Chemical Hazards

Flammable. Do not use or store near heat sources, sparks, or open flame. Do not use in the vicinity of pilot lights. Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F(54°C) may cause bursting.

## DIRECTIONS FOR USE

### GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**GENERAL:** Remove protective cap. Hold container upright. Point spray opening away from face and other persons or pets.

**FOR FLYING INSECTS- FLIES, MOSQUITOES, SMALL FLYING MOTHS, GNATS, WASPS, AND HORNETS:** Close all doors and windows. Spray up into the air with a sweeping motion. No need to spray directly at flying insects---the mist in the air will kill them. Fill the room with mist, then leave the area. Wait at least 15 minutes before returning, then ventilate area thoroughly. Sweep up and dispose of fallen insects.

**FOR CRAWLING INSECTS- ROACHES, WATERBUGS, SILVERFISH, CRICKETS, CENTIPEDES, AND SOWBUGS:** Spray hiding places such as baseboards and floor boards; moist places; cracks; crevices; openings around sinks, drains and pipes; behind bookcases, cabinets, and other storage areas, hitting as many bugs as possible. Repeat as needed.

**FOR ANTS:** Spray trails, hills, around window and door frames, and openings around pipes and baseboards where ants crawl, hitting as many as possible.

**FOR SPIDERS:** Spray webs, cracks, and crevices which may harbor these pests, spraying directly on as many spiders as possible. Repeat application frequently.

**CARPET BEETLES:** For adequate control, contact insects directly with spray. For infested upholstered furniture, thoroughly treat interior as well as exterior surfaces. For rugs and carpets, thoroughly spray both top surfaces and undersides. Shelves, closets, and areas under furniture should be treated. In all cases, treatment should be repeated as necessary to maintain control.

**FOR CLOTHES MOTHS:** Spray all articles of clothing and other items to be protected, giving special attention to seams and folds. Spray interiors of storage containers, such as clothes bags, trunks, chests, and closets on a regular basis. Repeat treatment at least every 30 days, unless articles are stored in moth-proof containers.

**FOR BEDBUGS:** Spray baseboards, moldings, and floor boards. Spray mattresses, particularly around seams and tufts. Take beds apart and spray into all joints. Repeat spraying at frequent intervals.

**FOR FLEAS:** Apply to floors and floor coverings, cracks, crevices, sleeping quarters of animals, and infested furniture. For adequate control, it is necessary to repeat applications to these areas to insure contact of all pests with the spray.

### STORAGE AND DISPOSAL

**STORE** in a cool, dry area away from flames, sparks, and other sources of heat or ignition. Containers heated above 130°F(54°C) may burst.

**For DISPOSAL,** replace cap and discard container in trash. Do not incinerate or puncture.

# HYKIL AEROSOL INSECT KILLER

FOR INSTITUTIONAL, INDUSTRIAL,  
COMMERCIAL, RESIDENTIAL, AND HOME USE.

**FOR USE IN:** Restaurants, Cafeterias, Bakeries, Food Processing Plants, Canneries, Bottling Plants, Food Markets, Hospitals, Schools, Hotels & Motels, Stores, Offices, and Homes; in Kitchens, Food Processing & Storage Areas, Food Preparation & Serving Areas, Warehouses, Washrooms, Locker Rooms, Utility Rooms, Closets, Bathrooms, Bedrooms, Living Rooms, Basements, Garages, and other enclosed areas, including those where food and feed are processed, prepared, served, and stored.

**KILLS:** Flies, Roaches, Ants, Mosquitoes, Gnats, Silverfish, Small Flying Moths, Wasps, Hornets, Waterbugs, Crickets, Centipedes, Sowbugs, Spiders, Carpet Beetles, Clothes Moths, Bedbugs, and Fleas.

### ACTIVE INGREDIENTS

Pyrethrins	0.3%
N-Octyl bicycloheptene dicarboximide	1.0%
Piperonyl butoxide, technical*	0.6%
INERT INGREDIENTS**	98.1%
<b>TOTAL</b>	<b>100.0%</b>

\*Equivalent to 0.48% (Butylcarbityl) (6-propylpiperonyl) ether and 0.12% Related compounds.

\*\*Contains aliphatic petroleum hydrocarbons.

**KEEP OUT OF REACH OF CHILDREN.**

## CAUTION

SEE ADDITIONAL PRECAUTIONARY AND PRACTICAL TREATMENT STATEMENTS ON BACK PANEL.

EPA Reg. No. 334-291
