DIRECTIONS FOR USE

Spray infested areas only until wet. Don't waste—a little goes a long way! To spray: Remove Cap. Point valve away from face, push button to release spray. FOR FLYING INSECTS: CRICKETS, HOUSEFLIES, WASPS, GNATS AND FLYING MOTHS. Outdoor Applications: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter room. Also treat surfaces around light fixtures and any other places where these insects congregate. Indoor Applications: Close all doors and windows; spray mist upwards into the air with a sweeping motion, keeping about 3 ft. from interior walls, fabrics, furniture and plants. Keep room closed 15 minutes. About 4 or 5 seconds spraying clears 1000 cubic feet of space.

FOR CRAWLING INSECTS—ROACHES, WATERBUGS, SILVERFISH CRICKETS: Spray heavily into all cracks, around baseboards and other places where these insects hide. Also spray until wet surfaces behind and beneath cabinets, refrigerators, sinks, stoves, etc. ANTS—Spray trails, hills, around window sills and openings around pipes and baseboards hitting as many as possible. Spray all localized areas infested with crawling pests. Repeat treatment as required to maintain effective control. SPIDERS, CENTIPEDES, SOW BUGS: Spray webs and places where they crawl. Hit as many as possible. Repeat as needed. ~~FOR FLEAS~~
~~FOR FLEAS~~
~~FOR FLEAS~~
FLEAS—Spray floors, floor coverings and sleeping quarters for pet. Repeat spraying as often as necessary. Do not spray pet.

Harmful if swallowed. Keep out of reach of children. Avoid repeated or prolonged inhalation and skin contacts. Wash thoroughly after using. Do not use on household pets or humans. **IF TAKEN INTERNALLY CALL PHYSICIAN.** Contents under pressure. Do not puncture container. Do not store at temperatures exceeding 120° F. Do not incinerate or spray into an open flame. Cover fish bowls and remove birds for 1 hour when spraying rooms. Keep spray in constant motion at least 36 inches away from walls, fabrics, furniture, floors, plastics, etc. Avoid contamination of food. Cover exposed food. This product ~~can~~ can be used around food products provided they are protected from direct contact during spraying.
