

DIRECTIONS FOR USE

Remove cap, hold container upright and depress button. Do not spray in inverted position. Keep container six inches to one foot from animal.

► Keep Out of Pet's Eyes ◀

To control fleas, lice and ticks, spray directly on animals, rubbing against fur, so that mist penetrates to skin. Spray until animal is slightly wetted by spray. Spray more heavily where ticks are a problem, attempting to spray ticks until wet wherever possible.

To control fleas and ticks in sleeping quarters, mist area thoroughly, being certain mist penetrates bedding, and cracks and crevices. Repeat weekly if necessary.
