NET WEIGHT: 16 oz. (1 LB.) 453 g

FEATURES, CLAIMS AND USES

This is a broad-spectrum, water-based, dual-synergized pyrethroid (synthetic pyrethrin) insecticide that can be used in both food and non-food areas. It has effective knockdown and kill for a wide range of flying and crawling insect pests. Helps make life more pleasant by reducing the annoyance of pesky flying insects and crawling bugs that intrude on indoor and outdoor living spaces.

This product kills many common flying and crawling insect pests, including Ants, Cockroaches (including German(Croton Bugs) and American(Waterbugs)), Crickets, Flies, Gnats, Mosquitoes, and small flying Moths.

For use in and around food and non-food areas of Industrial, Commercial, Residential and Medical Facilities, Equipment and Vehicles including Homes, Apartments, Cars, Vans, Campers, Mobile Homes, Boats, Trucks, Trailers, Buses, Ships, Public Transportation, Public Buildings, Schools, Laboratories, Hospitals, Nursing Homes, Doctor's and Dentist's Offices and Clinics, Veterinary Offices and Animal Hospitals, Pet Boarding Facilities and Zoos, Hotels and Motels, Restaurant and Cafeterias, Bakeries, Food Processing and Bottling Plants, Canneries, Food Markets, Taverns, Manufacturing Plants and Factories and Stores.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed. Avoid breathing spray mist or vapors. Avoid contact with eyes, skin or clothing. Do not take internally.

STATEMENTS OF PRACTICAL TREATMENT (First Aid)

GENERAL: Quickly follow directions below and call a Poison Control Center (or a physician or emergency department). Always get quick medical attention for ANY ill effects which continue (or show up later).

IF IN EYES: Flush eyes with plenty of water while removing any contact lenses, then hold eyelids open and flush eyes thoroughly with water.

IF ON SKIN, CLOTHING, ETC: Remove any contaminated clothing, shoes, jewelry, etc. (clean them thoroughly before wearing), and wash affected skin with soap and water.

PHYSICAL/CHEMICAL HAZARDS

CONTENTS UNDER PRESSURE. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F (54°C) may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL INSTRUCTIONS FOR ALL USES:

BEFORE USE: FIRST read entire label carefully. Find and dispose of all infested food/drink/feed, packaged goods, etc. Remove pets (including birds) and cover non-movable aquariums, etc. in area to be treated.

Before spraying in medical care areas, remove all patients. After spraying, ventilate area for 2 hours before returning patients.

Before spraying in non-food areas, remove or cover all exposed food/drink/feeds; also cover or remove any surfaces they may contact (such as on utensils, appliances, equipment, countertops, etc.).

Treat commercial food/drink/feed processing, preparation and serving areas only when the facility is not in operation.

TO SPRAY: Hold container upright, SHAKE WELL, aim toward area to be treated, and press firmly on spray button. Keep spray opening at least 3 ft. (1 m) from all surfaces and vegetation. Do not get spray on foods/ drinks/feeds or surfaces that they may contact. Do not spray on edible crops. Do not spray on or toward people or pets. Do not spray on electrical/electronic circuits (in appliances, conduit, switches, equipment, etc). Spray directly on insects whenever possible. Shake container occasionally during use.

AFTER USE: Wash all food/drink/feed contact surfaces with an effective cleaning product, followed by a potable(drinking) water rinse. Repeat insecticide treatment whenever insects return, or an necessary for control.

FOR FLYING INSECTS

To kill and control flying insects such as Flies, Gnats, Mosquitoes, and small flying Moths: Close all doors, windows and other openings around perimeter of area to be treated. Turn off all other sources of fresh air, such as fans, furnaces, air conditioners, etc.

Direct spray upward toward corners and center of area, using a slow, sweeping motion. There is no need to spray directly at flying insects; the mist in the air will kill them. Especially spray toward windows and other light sources which attract these insects. Fill the area with mist, or spray 5 to 10 seconds in each 1,000 ft³ (10' x 12' x 8' / 28m³ 3m x 4m x 2-1/2m) of space. Leave the treated area and keep it closed off for at least 15 minutes after spraying. Ventilate area thoroughly before re-entry. Sweep up and destroy taken insects.

FOR CRAWLING INSECTS

To kill and control crawling insects such as Ants, Cockroaches and Crickets: Thoroughly spray all parts of the area suspected of harboring these pests. Special attention should be paid to hiding and breeding places in holes/tracks/crevices in walls, floors and ceilings; in openings around pipes; behind baseboards; in moist areas; in hidden areas under and behind sinks, stoves, refrigerators, cabinets, bookcases, and other furnishings; in food storage areas; and in and around waste containers. For Ants, also spray their points of entry, such as around door and windows; in holes/tracks/crevices in walls, floors, and ceilings, and on known ant hills, hills and nests.
0295 Made in U.S.A. 20404

STORAGE AND DISPOSAL

GENERAL: Do not contaminate other materials (including water/food/feed) during transport, use, storage and disposal. If damaged or leaking, soap up and wrap any waste, then dispose of as before.

STORAGE: Keep in a cool, dry, locked area inaccessible to children and away from sources of heat and ignition (including flames, sparks, hot surfaces, and sunlight. Containers heated above 130°F (54°C) may burst.

DISPOSAL: Re-tighten protective cap on container, securely wrap in several layers of newspaper and disposal in trash. Do not incinerate or puncture.
