BEST AVAILABLE COPY

Dear Mr. Mantels:

Subject: Revised Label - Confidential Statement of Formula
F1K-20 Insect Killer
EPA Registration No. 334-449
Your Submission Dated October 15, 1990

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

Have your supplier of the Floral #167-032 submit its chemical identity. All components must be identified by chemical name, CAS Registry number and percentage in the mixture. The formula statement dated October 15, 1990 is acceptable and has been included in our files for this pesticide.

Sincerely yours,

RF Richard F. Mountfort
Product Manager (10)
Insecticide-Rodenticide Branch
Registration Division (M7505C)

INSECTICIDA

FEATURES, CLAIMS, AND USES

FOR USE IN: Homes, Apartments, Cars, Vans, Campers, Mobile Homes, Boats, Trucks, Trailers, Buses, Ships, Airplanes, Public Transportation, Public Buildings, Schools, Laboratories, Hospitals, Nursing Homes, Doctor's & Dentist's Offices and Clinics, Veterinary Offices and Animal Hospitals, Pet Boarding Facilities and Zoos, Hotels and Motels, Restaurants and Cafeterias, Food Processing and Bottling Plants, Canneries, Manufacturing Plants and Factories, and Stores.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed. Do not take internally or contaminate foods, drinks, feeds, or surfaces they may contact. Avoid breathing spray mists or vapors. Avoid contact with eyes, skin, and clothing. If on skin or clothing, wash off with soap and water.

STATEMENTS OF PRACTICAL TREATMENT

ALWAYS get quick medical attention for ANY ill effects which continue (or show up later).

IF IN EYES: Flush eyes with plenty of water while removing any contact lenses, then hold eyelids open and flush with plenty of water.

IF SWALLOWED: Do NOT induce vomiting unless directed by medical personnel. Immediately (for conscious victim) rinse mouth with water, spit out rinse, then drink a glassful or more of water and get medical attention.

PHYSICAL/CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F (54°C) may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL: Before spraying, remove pets (including birds), and cover non-movable aquariums, etc. Do not use in commercial food processing, serving, storage, or preparation areas. In addition, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Cover exposed food.

To spray, hold container upright, SHAKE WELL, press firmly on spray button, and apply spray in short bursts. Do not spray toward persons or pets. Whenever possible, spray directly on insects. Repeat treatment whenever insects return, or as necessary for control.

For KM Flies, Gnats, Mosquitoes, small flying Moths, and Wasps: Close all doors and windows in the area. Spray upward toward center and

corners of area, using a slow, sweeping motion. Spray 5 to 10 seconds in each 1,000 ft³ of space. Keep area closed for 15 minutes after spraying, then ventilate thoroughly before re-entry. Sweep up and destroy fallen insects.

For KM Ants, Cockroaches (Water Bugs), and Crickets: Thoroughly spray all parts of the area suspected of harboring these pests. Special attention should be paid to holes/cracks/crevices; hidden areas under and behind sinks, stoves, and refrigerators; in food storage areas; and wherever these pests are suspected of hiding. For Ants, also spray their points of entry, such as around door and window frames; holes/cracks/crevices in walls, floors, and ceilings; known ant trails, etc.

For KM Carpet Beetles: Thoroughly spray both interior and exterior of upholstered furniture, and top and bottom of rugs and carpets. Also treat closets, shelves, areas under furniture, and wherever these insects are seen or suspected.

For KM exposed forms of Confused Flour Beetles, Rice Weevils, and Saw-Toothed Grain Beetles: Empty and thoroughly clean food cabinets, closets, storage areas, etc. where these insects are present. Spray on the shelves and in any adjacent cracks/crevices. After shelves have dried, place clean covering on them and return non-infested items.

For KM Centipedes, Firebrats, Sowbugs, and Spiders: Thoroughly spray all parts of the area suspected of harboring these pests, including holes/cracks/crevices, and hidden areas under and behind sinks, stoves, and refrigerators.

For KM Brown Dog Ticks and Fleas: Do not spray animals. Remove and destroy old pet bedding. Spray pet sleeping quarters, around baseboards and window and door frames, in wall cracks, and on local areas of floors. Put fresh bedding in pet's quarters after spray has dried. Before re-entry, treat dogs and cats with a registered flea and tick control product.

STORAGE AND DISPOSAL

GENERAL: Do not contaminate other materials (including water, food, or feed), during transport, use, storage, or disposal. If damaged or leaking, soak up and wrap waste, then dispose of as below.

STORAGE: Keep in a cool, dry, locked area inaccessible to children and away from flames, sparks, sunlight, or other sources of heat or ignition. Containers heated above 130°F (54°C) may burst.

DISPOSAL: Refasten protective cap on container, then securely wrap in several layers of newspaper and discard in trash. Do not incinerate or puncture.
