NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

- 1. The registrant shall, at all times, maintain a current and accurate record of the product's use, including the following:
 - a. All data required for registration, reregistration, or renewal under FIFRA section 3(c)(5) when the Agency requires all such data for all products to which such data apply.
 - b. All data required for registration, reregistration, or renewal of the product's registration, including the following:
 - i. The product name "EPA Registration Number 334-550"
 - ii. The label "EPA Registration Number 334-550" and the name of the registrant.
 - iii. The data matrix for the product, including the following:
 - Use of the product in the electrical equipment due to the possibility of fire hazard.

- 3. Provide the methods used to analyze for the active ingredient.
- 4. Provide the density of your product. Simply referencing a similar product is not acceptable.
- 5. Provide storage stability data for your product conducted under warehouse conditions of temperature and humidity and stored in similar containers you will be using in the trade.
- 6. The flashpoint reported exceeds the one expected for this product. Please check and resubmit. Mixture marketed under pressure, including those containing hydrocarbons, are subject in their entirety to tests indicated in Section 156.10(h)(2)(iii) of Title 40 of the Code of Federal Regulations. (Flashpoints for pressurized liquids are conveniently measured after collecting the expelled liquid from the container in an open cup chilled with dry ice. See Aerosol Guide, CSMA.)
- 7. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
